

UAE Company. Registration that passes the bank.

Not just a license — a working business structure accepted by banks. We match zone, license, and bank to your business model.

The Difference

BANKING-FIRST

Most agents register a company, then the client can't open an account. We work the other way: first we verify whether the bank will accept your structure (Pre-screen), only then we register. Zone, license type, jurisdiction — everything is determined by banking requirements.

What You Get

OUTCOME

Bankable Structure

Company registered for a specific bank. Not "hoping they'll open" — with confirmation.

Right Zone

Mainland or Freezone — based on business model, clients, banking requirements, and budget.

Activity-Matched License

License type that the bank accepts and regulator approves. No unnecessary activity codes.

Full Package

Registration, lease agreement, establishment card, all government documents.

How It Works

PROCESS

01

Pre-screen

Business model analysis, KYC profile, banking scenario selection. 5–7 days.

02

Architecture

Zone, license type, ownership structure selection — per banking requirements.

03

Registration

Document filing, license receipt, lease, establishment card. 2–4 weeks.

04

Bank

Bank application, compliance support, corporate account opening.
