What is X-ray

OVERVIEW

X-ray is a full audit of your situation through the lens of banks and regulators. We don't sell services upfront. We first assess: who you are, what's the business, what are the risks, what are the options. The outcome is a risk map and an actionable plan. If the case is "red" — we tell you directly.

What You Get

OUTCOME

Risk Map

KYC/AML pre-screening, sanctions check, ownership structure and source of funds analysis.

Banking Strategy

Bankability assessment: which banks will realistically open an account for your profile and business model.

Tax Analysis

Current residency assessment, double taxation risks, tax transition strategy.

Roadmap

A document with a concrete plan: what to do, in what order, which documents to prepare, what it costs.

How It Works

PROCESS

01

Request

You describe your situation and goals. We send a document checklist.

02

Analysis

Offline analysis: KYC screening, banking strategy, tax mapping. 5–7 business days.

03

Verdict

Meeting or video call with results. Risk map + roadmap + recommendations.

04

Decision

You decide: proceed to Entry/Setup or stop. No pressure.

Why WTP

APPROACH

- **No upselling**
You pay for diagnostics, not a service package. The decision is yours.
- **Banking-First**
We verify bankability before registration. A company without an account is wasted money.
- **Honest verdict**
If the case won't pass — we say so. ~30% of cases are declined.
