Escrow account, property verification, legal closing — for
deals without a local account.

THE PROBLEM

80+

deals through escrow
zero fund disputes

- Direct transfer to seller before registration is a risk.
If the deal falls through, getting money back is extremely difficult
- Buying without a local account is standard for non-residents.
Escrow solves it: funds held in a protected account until registration
- Without due diligence, you risk buying property
with encumbrances, debts, or disputes
