#### THE PROBLEM

## BOUNDARIES & STOP-FACTORS

What we control and what we do NOT guarantee:

- | Due diligence may reveal issues — better before than after purchase
- | NOC depends on the developer — timelines may vary
- | DLD registration depends on government authorities
- | Escrow does not cover market risks — only fund safety

## Why recommend WTP

### 80+ deals, zero disputes

We know DLD procedures, each developer's NOC requirements, pitfalls at every stage.

### Full cycle, one manager

Verification → escrow → documents → registration. Not four different contractors.

### The client stays yours

Contractual protection: non-solicitation, dedicated channel, SLA.

## NEXT STEPS
