

FOR ASSET OWNERS & FAMILIES

UAE Foundation. Control and protection — without losing ownership.

Legal structure for asset protection, succession, and
confidential management.

THE PROBLEM

50+

foundations registered
across DIFC, ADGM, RAK ICC

- Direct ownership is an open target: lawsuit, creditor, divorce can freeze or destroy assets
- Sharia inheritance in UAE ignores the owner's wishes. Foundation ensures automatic controlled transfer
- Unlike a trust, the founder retains control. You manage the foundation and can change its rules

What You Get

Asset Protection

Belong to foundation, not individual. Protected from claims and creditors.

Founder Control

Unlike trust, you manage. Rules can be changed at any time.

Succession

Automatic transfer. No court, no Sharia, no delays.

Confidentiality

Structure not publicly disclosed. Beneficiaries protected.

How We Are Different

50+ foundations registered

DIFC, ADGM, RAK ICC — we work with all jurisdictions and select the optimal one for your goals and budget.

Foundation without a bank doesn't work

Many register a foundation, then can't open an account. We set up banking in parallel — Banking-First approach.

Living structure, not a document

After registration, we handle reporting, update rules, assist with corporate governance.

A foundation means control, protection, and transfer. Without losing ownership, without court, without Sharia.
