BOUNDARIES & STOP-FACTORS

What we control and what we do NOT guarantee:

- Foundation does not hide assets from tax authorities — this is not an offshore scheme
- Minimum threshold: assets from \$500K (below — not justified)
- Bank account for Foundation — separate process with due diligence
- Annual maintenance costs: audit, reporting, licenses

Why recommend WTP

Foundation + bank in parallel

We don't register a structure without banking access. 50+ foundations — all with working accounts.

Three jurisdictions, one approach

DIFC, ADGM, RAK ICC — we match to the client's goals and budget. One manager.

The client stays yours

Contractual protection: non-solicitation, dedicated channel, SLA.
