

FOR ENTREPRENEURS & INVESTORS

UAE Company. Registration that passes the bank.

Not a license — a working structure accepted by banks.
Zone, license, and bank matched to your model.

companies registered
with open bank accounts

THE PROBLEM

300+

companies registered
with open bank accounts

- Client pays \$5–15K for registration — can't open an account.
Bank declines: agent didn't consider banking requirements
- Every failed bank application is recorded.
After 2–3 rejections, chances drop critically
- We work the opposite way: first verify if
the bank will accept the structure — only then register

What You Get

Bankable Structure

For a specific bank. Zone, license, activity codes — with confirmation.

Right Zone

Mainland or Freezone — matched by model and budget, not zone marketing.

Matched License

Type the bank accepts. No unnecessary activity codes that trigger compliance.

Full Package

Registration, lease, establishment card, all documents for the bank.

How We Are Different

300+ companies with bank accounts

Not just registered — with working accounts. The fundamental difference between us and agents selling licenses.

Pre-screen saves \$5–15K

If the bank won't accept the structure — we tell you before registration. You don't spend money on a company that can't operate.

One manager, one timeline

Company + account + visa + office — one project. Government fees at cost, our fee is transparent.

Since 2019 · Banking-First approach · UAE

A UAE company without a bank account is a license on the wall. 300+ of our clients received both a company and an account.

01

Business model, KYC, banking scenario.

02

Zone, license, ownership structure.

03

License, lease, establishment card.
