WHO IS THIS CLIENT

- Entrepreneur planning a business in the UAE
- Investor needing a structure for asset ownership
- Client already declined by a bank for an account
- Often combines with visa, bank account, and office

THE PROBLEM

300+

companies registered
all with bank accounts

| Registration without pre-screen = high risk of bank rejection

| Wrong zone or activity code = unable to open an account

| Client loses \$5–15K and months on a non-working structure

SERVICE SCOPE

What's included

- ✓ Pre-screen & strategy
- ✓ Registration
- ✓ Lease / office
- ✓ Bank application
- ✓ Jurisdiction & license
- ✓ Trade License
- ✓ Establishment Card
- ✓ ESR compliance

TIMELINE

PARTNER MODEL

Registration is the core product with high upsell: visa, bank, accounting, compliance.

Freezone

Popular zones: DMCC, IFZA, RAKEZ. Quick start.

Mainland

DET license. For working with the local market.

Setup (package)

Company + visa + account. One timeline, one fee.

Control

Accounting + compliance + ESR. Maximum LTV.

BOUNDARIES & STOP-FACTORS

What we control and what we do NOT guarantee:

- Pre-screen may result in NO-GO — better before than after paying
- Government fees depend on zone and license — passed at cost
- Bank account — separate process, depends on bank compliance
- ESR reporting is mandatory — we assist, but responsibility is on the company

Why recommend WTP

300+ companies, 0 without accounts

Every company registered with a bank account. Pre-screen before registration is our standard.

Banking-First, not License-First

We start with the bank. Zone and license are matched to banking requirements, not the other way around.

The client stays yours

Contractual protection: non-solicitation, dedicated channel, SLA.

NEXT STEPS

Start with your first case

- 1 Send us the client's business description and KYC data
- 2 We'll run the pre-screen in 5–7 days
- 3 Client receives registered company + bank account
