

FOR NEW CLIENTS & PARTNERS

Pre Screen. The \$15,000 mistakes we prevent.

Comprehensive diagnostics before any action: banking risks, tax strategy, asset structure.

\$8–15K

average loss from registration
without a banking pre-check

THE PROBLEM

\$8–15K

average loss from registration
without a banking pre-check

- Every failed bank application is recorded in the system and reduces chances for the next attempt
- Without a pre-check, you risk spending months and thousands of dollars on a non-working structure
- ~30% of cases are declined at Pre Screen stage. Better to learn this before paying for registration

What You Get

Risk Map

KYC/AML pre-screening, sanctions check, ownership and source of funds analysis.

Banking Strategy

Bankability assessment: which banks will realistically open an account for your profile.

Tax Analysis

Current residency evaluation, double taxation risks, tax transition strategy.

Roadmap

Document with plan: what to do, in what order, which documents, what it costs.

How We Are Different

No upselling

You pay for diagnostics only. If Pre Screen recommends not to proceed — you pay for Pre Screen alone.

Banking-First methodology

Since 2019, we have assessed 350+ cases. We start with the bank, not registration — because a company without an account is useless.

Honesty as a business model

30% rejection rate is our reputation. A client we honestly told "no" comes back with another case.

Since 2019 · Banking-First approach · UAE

350+ cases since 2019. 30% honest declines. The remaining 70% — working businesses in the UAE with bank accounts.
