

FOR CAPITAL OWNERS

X-Ray. See your capital as a system for the first time.

Complete capital "X-Ray": diagnostics, loss detection, risk mapping, and growth opportunities. Not a consultation — a systematic analysis.

THE PROBLEM

\$5–15K

Full X-Ray cost
depending on depth of analysis

- Assets scattered across jurisdictions — no unified picture.
You don't know your real net worth
- Hidden losses: inefficient assets, tax gaps,
currency and country imbalances
- Without consolidation, strategic decisions are impossible.
You're managing chaos, not capital

What You Get

Consolidation
