

Building Bankable UAE Structures

Cross-border relocation orchestrated.

Exit coordination from your home jurisdiction + banking-first company setup in the UAE.

Two sides, one gap

Everyone sells the destination. Nobody coordinates the exit AND the entry.

Exit side — your home jurisdiction

Tax exit planning & capital gains

Substance & regulatory compliance

Pension & trust restructuring

Wind-down of local structures

Handled by: your local tax advisor

Entry side — UAE

Company formation & licensing

Corporate banking

Visa & tax residency

Economic substance

Handled by: UAE service provider

The gap: who synchronizes both sides into one timeline?

If they don't coordinate — you pay twice.

We bridge both sides

One synchronized process. Your exit advisor and WTP work from a shared playbook.

EXIT SIDE

Partner firms in UK, Germany, Netherlands

Tax exit planning, capital gains optimization, regulatory compliance, and wind-down of local structures.

WTP BRIDGE

ENTRY SIDE

WTP — Banking-First methodology

Company formation, banking, visa, tax residency, and economic substance — structured for bank acceptance from day one.

Coming from another jurisdiction? We coordinate with your existing advisor using our standard cross-border protocol.

Banking-First: the correct order of operations

Most providers register first and hope for the best. We assess bankability first — before you spend a dirham on setup.

01

Pre-Check

Assess your profile, source of funds, and flag issues — both on the UAE side (bank readiness) and the exit side (tax exposure, substance).

02

Exit Coordination

Connect you with our partner firm in your jurisdiction — or coordinate with your existing advisor — for a tax-correct exit.

03

UAE Architecture

Design the right structure based on your banking profile, business model, and residency goals. Free zone, mainland, or holding — chosen for bankability.

04

Synchronized Execution

Exit and entry happen in the right order. Registration, banking, visa, substance — timed to your tax calendar.

Full product line — not just bank accounts

Banking-first is our methodology. But we deliver end-to-end infrastructure for your UAE life and business.

Company Formation

Free zone, mainland, or holding — chosen for bankability. Trade license, registration, and legal structure.

Corporate Banking

Multi-bank strategy. Current accounts, payment processing, trade finance. Pre-screened for acceptance.

Visas & Residency

Golden Visa (AED 2M+), investor visas, family visas, Emirates ID. End-to-end processing.

Tax & Accounting

Corporate tax registration, VAT compliance, bookkeeping, and annual reporting. Full back-office.

Personal Banking

Personal accounts, wealth management introductions, multi-currency solutions for HNWI clients.

Asset Protection

Wills, foundations, trust structures, and tax residency certificates. Protecting what you've built.

How UAE compares to other jurisdictions

JURISDICTION	CORPORATE TAX	PERSONAL TAX	SETUP TIME	BANKING	GOLDEN VISA	SUBSTANCE
UAE	9%	0%*	2–4 weeks	Strict but manageable	Yes (AED 2M)	Real
Singapore	17%	0–22%	1–3 weeks	Easy	No	Real
Portugal	21%	20–48%	4–8 weeks	Easy	Yes (EUR 500K)	Minimal
Switzerland	8.5–24%	0–11.5%	4–12 weeks	Very strict	No	Real
Malta	35% / 5%*	0–35%	8–16 weeks	Moderate	Yes (EUR 700K)	Minimal

*UAE wins on tax rate, personal income tax, visa program, and speed.
But only if your banking is sorted. That's where we come in.*

* Malta: 35% corporate rate with potential refund to effective 5%. Data as of 2026. Verify with your tax advisor.

** UAE: 0% personal income tax on employment and investment income. Certain categories (e.g. freelancers selling to UAE) may have nuances — verify with your tax advisor.

Common scenarios we handle

We work with clients who need more than just a company registration.

Restructuring

You're relocating your business to the UAE and need a structure that actually opens a bank account — not just a trade license.

Tax Residency

You need UAE tax residency that withstands scrutiny from your home country's tax authority. Exit must be done correctly.

Golden Visa + Investment

You're investing in UAE property and want the visa, company structure, and tax planning handled as one coordinated project.

Compliance Rescue

You already have a UAE company but your bank rejected you — or your economic substance is questionable. We restructure and re-apply.

How we're different

01

Banking-First Process

We assess bank readiness and risk BEFORE registration. No "register first, hope for the best."

02

Exit + Entry Coordination

Partner firms handle exit. We handle entry. One synchronized timeline — nothing falls through the cracks.

03

Risk-Aware Filtering

We decline cases that won't pass compliance. This protects you from wasted time and money.

04

Cost + Fee Transparency

Government fees passed through at cost. Our management fee is separate and clearly stated. No hidden markups.

05

Real Substance

Actual management infrastructure and operational presence. Not virtual office theater.

06

Single Point of Coordination

One project manager, one timeline, one communication channel. No chasing multiple providers.

NEXT STEP

Get Your Banking Roadmap

A personalized assessment of your bankability, recommended structure, and step-by-step timeline.

What you receive:

- ✓ Bankability assessment based on your profile
- ✓ Recommended structure (free zone, mainland, or holding)
- ✓ Banking routing strategy
- ✓ Step-by-step timeline with cost estimate
- ✓ Risk verdict: Green / Yellow / Red

Free. 5–7 business days.

No commitment. No obligation to proceed.
