WHO IS THIS CLIENT

- UAE resident with accounts, completed property and off-plan units
- Non-Muslim — expects nationality law to apply, but court procedure still runs
- Family with children — needs guardianship and executor provisions
- Often combines a Will with banking structure and Foundation

THE PROBLEM

Dubai Courts

registration, not only document preparation

Under Article 241 of the UAE Personal Status Law (Jan 2026) — without a Will and verified heirs, assets may be directed to Waqf

A bank account is frozen — payments to contractors and operations cannot continue

Completed property cannot be transferred — heirs wait pending court orders

An off-plan unit is stalled as developers require a court instruction

PARTNER MODEL

A Will is the entry point into HNW wealth protection. Since Jan 2026 (Article 241 UAE PSL) UAE-side registration has become critical. It often leads to banking structuring and Foundation work.

Single Will

One applicant. Dubai Courts.

Mirror Will

For spouses. Two cross-referenced Wills.

Will + Guardianship

Will + guardian appointment. For families with children.

Will + Foundation

Comprehensive protection. Maximum LTV.

BOUNDARIES & STOP-FACTORS

What we control and what we do NOT guarantee:

- A Will covers UAE assets — international assets require separate instruments
- Wills prepared only abroad may not automatically apply to UAE assets
- Nationality-law changes do not remove UAE court procedure
- Changes in family or asset composition require Will updates
