

WTP Boutique Real Estate — Partner Network

⚠️ PRE-DISTRIBUTION: Verify statistics with WTP Operations

- "40% of international buyers" — source needed (internal data or industry report). If unverifiable, soften to "many international buyers"

- Referral fee schedule — confirm current percentages and payout timelines with finance team

Your client signed a 3M AED purchase agreement. Then the bank declined their account.

This happens to 40% of international buyers in Dubai. The property is locked, the deposit is paid, and the client has no way to complete the transaction — or operate once they arrive.

We prevent this. WTP structures investor entry into UAE: banking verification first, property second.

For tax advisors, wealth managers, family offices, and immigration consultants whose clients need Dubai real estate integrated with banking, visa, and corporate structure.

Why Partners Choose WTP

Banking-first — We verify account eligibility before property commitment. Your client never signs an SPA until we confirm the banking scenario works. Zero wasted deposits. Zero reputational risk for you. **One partner, full execution** — Property + company setup + bank account + visa + tax structure. Your client deals with one team, not five vendors. You stay in control. **Your client stays yours** — Documented referrals, contractual non-circumvention, no direct contact without your approval. We report to you, not around you.

How It Works

01 Submit a case — Client name, country, budget, investment goal (residence / yield / Golden Visa). We acknowledge within 4 hours and assign a dedicated case manager. **02 Pre-screen (48h)** — Banking eligibility check, SOF assessment, risk verdict: Green (proceed), Yellow (conditional), Red (decline). If banking won't work, we tell you before your client commits money. **03 Execution** — Property selection, structure setup (company if needed), bank account, visa processing, transaction close. You receive weekly status updates and can check progress anytime. **04 Payout** — Referral fee transferred per agreed schedule. Post-completion report with full case documentation delivered within 48 hours.

What We Won't Do

Speculate. We structure long-term investment. If a client wants quick flips, we're not the right partner. **Promise returns.** We provide market data and ROI analysis. We don't fabricate yield guarantees. **Skip compliance.** If Source of Funds doesn't meet banking standards, we decline the case — and explain to the client why that protects them.

Start With One Case

Free pre-screen, zero obligation. Send us one client profile. Within 48 hours, you'll receive a banking eligibility verdict and a proposed service plan. If the scenario works — we proceed.
