

WTP Real Estate — Full Client Journey Service Map

End-to-end client journey from discovery to post-purchase management.

This map outlines what WTP does, what the partner does, timeline expectations, and deliverables at each phase.

Phase 1: Discovery

Objective: Understand client profile, investment goals, budget, and timeline. **What WTP does:**

- Initial questionnaire: investment purpose (residence/yield/Golden Visa), budget range, risk tolerance, preferred areas
- Client profile documentation: nationality, current residency, Source of Funds overview (high-level)
- Banking scenario discussion: types of banks client has worked with, any previous UAE banking attempts

What partner does:

- Client referral with context: "UK tax advisor referring client relocating due to non-dom changes, budget \$2-3M, needs Golden Visa + substance"
- Provide background on client's tax situation, home jurisdiction exit planning status
- Clarify if client is ready to proceed or in research phase

Timeline: 1-2 days (questionnaire completion, initial call) **Deliverables:**

- WTP: Case acknowledgment (4 hours), discovery call scheduled
 - Partner: Client profile summary sent to WTP
-

Phase 2: Pre-Screen (Banking Eligibility & Risk Assessment)

Objective: Determine if client can open UAE bank account BEFORE property commitment. **What WTP does:**

- Request detailed SOF documentation: bank statements (6 months), source of wealth narrative, corporate ownership structures if applicable
- KYC/AML review: sanctions screening, PEP check, jurisdiction risk assessment
- Banking scenario modeling: which UAE banks match client profile (tier-1 vs. tier-2, international vs. local)
- Risk classification: Green (proceed), Yellow (conditional — requires enhanced due diligence), Red (decline)
- Pre-screen report: banking options, estimated account opening timeline, document requirements, structure recommendations

What partner does:

- Assist client in gathering SOF documents
- Provide context on any complex SOF elements (e.g., corporate sale proceeds, inheritance, crypto conversion)
- Review pre-screen report with client, address questions on banking scenario

Timeline: Initial verdict (Green/Yellow/Red): 48 hours. Full pre-screen report (PDF, 5-8 pages): 5-7 business days from complete document submission. **Deliverables:**

- WTP: Pre-screen report (PDF, 5-8 pages) — banking verdict, risk classification, recommended next steps
- Partner: Client sign-off to proceed (if Green/Yellow) or exit conversation (if Red)

Key decision point: If banking scenario is Red or client rejects Yellow conditions, project ends here. No property search initiated. This protects client from purchasing property they cannot bank around.

Phase 3: Property Selection

Objective: Identify property aligned to client goals, budget, and banking/visa requirements. **What WTP does:**

- Area analysis: present 3-5 shortlisted areas based on criteria (ROI, Golden Visa eligibility, lifestyle, banking signal to banks)
- Developer due diligence: financial stability check for off-plan developers, delivery track record, Golden Visa approval status
- Property shortlist: 5-10 options with analysis (price per sqft, rental yield estimate, proximity to amenities, title status)
- Viewing coordination: schedule viewings, accompany client, provide on-site analysis
- Market data provision: comparable sales, price trends, area development plans

What partner does:

- Advise client on structure implications: "If you buy in personal name, UK tax reporting applies. If via UAE company, different treatment. Discuss with me before making offer."
- Review property shortlist with client if client requests partner input
- Confirm client's decision to proceed with specific property

Timeline: 1-3 weeks (depends on client availability for viewings, decision speed) **Deliverables:**

- WTP: Area analysis report, property shortlist (Excel/PDF), viewing summaries, market data pack
 - Partner: Structure advisory note to client (if applicable)
-

Phase 4: Transaction (Due Diligence → SPA → Close)

Objective: Execute property purchase with full legal and financial diligence. **What WTP does:**

- **Due diligence (3-5 days):**

- Title verification: confirm seller ownership, check encumbrances, verify DLD records - Developer financials: for off-plan, verify escrow account, construction progress, Oqood eligibility - SPA review: contract terms, payment schedule, handover conditions, penalties - Mortgage coordination if applicable: pre-approval, bank selection, documentation

- **Offer and negotiation (1-3 days):**

- Submit offer on behalf of client, negotiate price/terms - Draft MOU (Memorandum of Understanding) if seller requires pre-SPA commitment

- **SPA signing and deposit (1-2 days):**

- Coordinate SPA signing (in-person or POA if client remote) - Transfer deposit to escrow (typically 10% of purchase price) - Receive signed SPA and deposit receipt

- **Transaction close (1-2 weeks):**

- Coordinate full payment transfer (from client account → seller/developer escrow) - DLD registration: Trustee Office appointment, submit forms, pay DLD fees (4% + admin) - Title deed issuance (for ready property) or Oqood certificate (for off-plan) - Handover coordination: key collection, snagging inspection (defect checklist) **What partner does:**

- Review SPA on client's behalf if client requests (or recommend independent legal review)
- Confirm client authorization for deposit and full payment transfers
- Advise on any tax reporting requirements in home jurisdiction (e.g., UK clients must report foreign property on tax return)

Timeline: 2-4 weeks from offer to title deed in hand **Deliverables:**

- WTP: Due diligence report, negotiated SPA, title deed or Oqood certificate, transaction summary with all receipts
 - Partner: Tax reporting advisory (if applicable in client's jurisdiction)
-

Phase 5: Infrastructure (Company, Bank Account, Visa)

Objective: Build operational infrastructure around property ownership. **What WTP does:**

- **Ownership structure setup (if needed, 1-2 weeks):**

- If client chose company ownership route: register UAE LLC or Free Zone company - Corporate bank account opening for company (if property held in company name) - Director appointment, MOA/AOA drafting, initial share allocation

- **Personal bank account opening (2-4 weeks):**

- Submit application to pre-selected bank (from Phase 2 banking scenario) - Coordinate client meeting with bank (in-person or via POA if remote onboarding available) - Follow up on account approval, card issuance, online banking activation

- **Golden Visa processing (6-8 weeks, if property is 2M+ AED):**

- Application submission: title deed, passport copies, Emirates ID application, proof of relationship for dependents - Medical fitness test coordination: approved clinics, results submission - Biometrics appointment: Emirates ID photo and fingerprints - Visa approval and entry permit issuance - Visa stamping in passport (can be done in UAE or at UAE embassy abroad) - Emirates ID card collection (delivered within 2 weeks of approval)

- **Tax residency certificate (if client requests, 2-4 weeks):**

- Register with Federal Tax Authority (FTA) - Submit residency evidence: visa, Emirates ID, utility bills, tenancy contract or title deed - Obtain UAE Tax Residency Certificate for treaty benefits in home country **What partner does:**

- Coordinate with WTP on company structure (if applicable): share allocation, director appointment, confirm tax treatment
- Advise client on tax residency strategy: does client need 183 days in UAE for home country deregistration?
- Review tax residency certificate for use in client's home jurisdiction tax filings

Timeline: 6-10 weeks (company + banking + visa overlapping, not sequential) **Deliverables:**

- WTP: Company formation documents (if applicable), bank account confirmation letter and cards, visa stamps in passport, Emirates ID, tax residency certificate (if requested)
 - Partner: Coordination notes on tax residency use in home jurisdiction
-

Phase 6: Post-Purchase (Property Management & Ongoing Compliance)

Objective: Ensure property is operationally sound, income-generating (if investment), and compliance maintained. **What WTP does:**

- **Snagging and handover (1-2 weeks after key collection):**

- Professional snagging inspection: defect list (paint, fixtures, appliances, MEP) - Developer coordination: submit snagging report, track rectification - Final handover sign-off once defects resolved

- **Property management setup (if rental investment):**

- RERA registration: register property with Dubai Real Estate Regulatory Agency - Tenant search: marketing, viewings, tenant screening - Tenancy contract drafting and EJARI registration (mandatory Dubai tenancy registration) - Rent collection and remittance to client account - Maintenance coordination: AC servicing, plumbing, community fee payments

- **Ongoing compliance (annual/as needed):**

- Visa renewals: Golden Visa renewal after 10 years, employment visa renewals annually if applicable - Company renewals: license renewal, audit (if applicable), ESR filing (Economic Substance Regulations) - Tax filings: corporate tax return (if company structure), VAT returns (if applicable) - Banking relationship maintenance: update KYC docs annually, coordinate with bank on any compliance requests - Property management reporting: quarterly financial reports (rental income, expenses, net yield) **What partner does:**

- Remain client's primary advisor for tax and wealth planning
- Coordinate with WTP on any major decisions: property sale, structure changes, additional property purchases
- Annual tax planning review: use WTP-provided UAE documents (tax residency cert, bank statements, visa copy) for client's home jurisdiction filings

Timeline: Ongoing (retainer-based relationship) **Deliverables:**

- WTP: Snagging report, RERA registration certificate, tenancy contracts, quarterly property management reports, annual compliance summary (visa/license/tax status)
 - Partner: Annual coordination call with WTP and client to review UAE setup and plan next steps
-

Summary: Phase Overview

PHASE	FOCUS	WTP LEAD	PARTNER LEAD	DURATION	GO/NO-GO GATE
1. Discovery	Profile, goals, budget	✓ (intake)	✓ (referral context)	1-2 days	—
2. Pre-Screen	Banking eligibility, risk	✓ (full ownership)	Support (SOF docs)	Verdict: 48h; Report: 5-7 days	YES — banking verdict Green/Yellow = proceed, Red = stop
3. Property Selection	Search, viewings, shortlist	✓ (market expertise)	Advise (structure)	1-3 weeks	YES — client selects property
4. Transaction	Due diligence, SPA, close	✓ (execution)	Review (legal/tax)	2-4 weeks	YES — title deed received
5. Infrastructure	Company, bank, visa	✓ (setup & processing)	Coordinate (tax residency)	6-10 weeks	YES — visa + bank account active
6. Post-Purchase	Management, compliance	✓ (operations)	✓ (ongoing advisory)	Ongoing	—

Key Success Factors

For WTP:

- Execute Phase 2 (pre-screen) with rigor — no false positives on banking
- Deliver weekly status updates during Phase 4-5 (transaction and infrastructure)
- Maintain transparency: if delays occur (bank requests more docs, visa processing slows), communicate immediately

For Partner:

- Provide full client context at Phase 1 (referral) — the more WTP knows upfront, the better pre-screen accuracy
- Coordinate structure decisions (Phase 3-4) — personal vs. company ownership has tax implications, partner must advise
- Stay engaged during Phase 5-6 — client should see partner and WTP as integrated team, not separate vendors

For Client (communicated by Partner):

- Understand that Phase 2 is the decision gate — if banking is Red, property purchase is not advisable
- Expect 3-4 month end-to-end timeline from referral to "keys + visa + bank account in hand"
- Commit to UAE substance if tax residency is the goal (183 days/year, utility bills, real presence)
