

4-week-content-plan

Campaign Period: Weeks 1-4 (20 posts)

Cadence: 5 posts/week (Mon-Fri)

Objective: Establish RE positioning, generate partner + investor leads

Brand Voice: Clinical, expert, restrained. Risk/outcome lens. First person.

Algorithm Strategy (360 Brew / 2026)

3 Core Topics (80% of content must fall within these):

1. **UAE Banking & Property Integration** — banking-first methodology, SOF, pre-screening
2. **Golden Visa & Tax-Compliant Relocation** — visa mechanics, exit tax, substance
3. **Dubai Investment Intelligence** — market data, area comparisons, ROI analysis

Format priority (based on 2026 performance data):

1. Carousels/Infographics — highest follower conversion and saves
2. Document posts — deep content, high save rate
3. Text + story posts — relationship building
4. Video — awareness only

Branded Frameworks (WTP intellectual property to repeat):

- **The Banking-First Method™** — pre-screen → structure → buy (not buy → hope for bank)
- **The 3-Question Filter** — Can they bank? What's the exit plan? What's the structure?
- **The Bankable Investor Checklist** — 6-point SOF + eligibility framework

Hook rule: First 1-2 sentences get 3-5x algorithm attention. Every hook must be directional (about banking/RE/visa), specific (numbers, scenarios), and pattern-interrupting. **Save optimization:** Carousels with frameworks, checklists, and comparison data drive saves — the #1 algorithm signal in 2026.

Week 1

Post 1.1 — Monday

Pillar: Banking + RE Synergy **Title/Hook:** "My client bought a \$2M apartment. Then couldn't open a bank account." **Format:** Text (Story Post) **Audience:** B2C (Investors) + B2B (Advisors) **CTA:** Soft (question: "Ever seen this happen?") **Landing:** realestate.wtpref.com
Description: Real scenario. UK investor, Golden Visa property purchase. Banking failed post-closing because source-of-funds wasn't pre-screened. Lesson: check banking BEFORE signing SPA. Positions WTP's banking-first methodology as risk prevention.

Post 1.2 — Wednesday

Pillar: Market Insider **Title/Hook:** "RAK property prices +47% YoY. Here's why Wynn Casino is only the beginning." **Format:** Carousel (Data + Charts) **Audience:** Both **CTA:** Medium (link to "RAK Investment Report" in comments) **Landing:** Blog post (future) or realestate.wtpref.com **Description:** RAK market data. Wynn Casino opening 2027, AI Marjan Island growth, holiday home potential. 6-slide carousel: hook, price chart, Wynn impact timeline, rental yield vs Dubai, WTP take, CTA. Establishes market intelligence credibility.

Post 1.3 — Friday

Pillar: Partner Playbook **Title/Hook:** "How a UK tax advisor generated £40K in referral fees last quarter." **Format:** Text (Partner Case Study) **Audience:** B2B (Partners) **CTA:** Hard (book intro call) **Landing:** partners.wtpref.com **Description:** Anonymized partner success story. Advisor sent 3 non-dom clients relocating to UAE. WTP handled RE + company + visa. Advisor received 35% referral fee on package deals. Message: monetize your UAE-bound clients without lifting a finger.

Week 2

Post 2.1 — Monday

Pillar: Golden Visa Mechanics **Title/Hook:** "Golden Visa through property in 2026: the exact checklist (not what agents tell you)." **Format:** Text (How-To / List) **Audience:** B2C (Investors) **CTA:** Medium (link to checklist PDF in comments) **Landing:** realestate.wtpref.com **Description:** Step-by-step breakdown. 2M AED requirement, eligible property types, banking prerequisite, timeline, common mistakes. Educational SEO play. Positions WTP as trusted guide, not just sales.

Post 2.2 — Wednesday

Pillar: Investment Intelligence **Title/Hook:** "Everyone's talking about Dubai Marina. Here's why I'm telling investors to look at Expo City instead." **Format:** Text (Contrarian Take) **Audience:** Both **CTA:** Soft (question: "What's your view on Expo City?") **Landing:** realestate.wtpref.com **Description:** Contrarian position. Marina = saturated, rental yields declining. Expo City = world-class infrastructure, Metro Line, long-term capital appreciation, lower entry price. Data-backed argument. Sparks discussion, positions as independent thinker.

Post 2.3 — Friday

Pillar: Banking + RE Synergy **Title/Hook:** "40% of Dubai property buyers face banking problems AFTER purchase." **Format:** Document / Carousel (Data + Solution) **Audience:** Both **CTA:** Medium (free banking pre-screen link in comments) **Landing:** realestate.wtpref.com (pre-screen form) **Description:** Industry data. Most agents sell property, ignore banking. Result: buyers can't transfer funds, can't get mortgage, lose deposits. WTP approach: banking pre-screen first. 5-slide carousel: stat, 3 common banking failures, WTP solution, CTA.

Week 3

Post 3.1 — Monday

Pillar: Market Insider **Title/Hook:** "The off-plan trap: what developers don't disclose." **Format:** Text (Warning / Education) **Audience:** B2C (Investors) **CTA:** Soft (engagement question) **Landing:** realestate.wtpref.com **Description:** Off-plan risks: delivery delays, quality issues, payment plan traps. Not anti-off-plan, just "know what you're signing." WTP vets developers, reads contracts, flags red flags. Trust-building through transparency.

Post 3.2 — Wednesday

Pillar: Golden Visa Mechanics **Title/Hook:** "Golden Visa rule changes you need to know (March 2026 update)." **Format:** Text (News / Update) **Audience:** Both **CTA:** Soft (invite to subscribe to newsletter) **Landing:** Newsletter signup (if launched) or realestate.wtpref.com **Description:** Timely regulatory update. Any recent changes to Golden Visa eligibility, property types, or process. Positions WTP as current on regulations. If no real changes in March, use "What hasn't changed (despite rumors)" angle.

Post 3.3 — Friday

Pillar: Investment Intelligence **Title/Hook:** "Dubai property ROI: the real numbers (not developer promises)." **Format:** Carousel (Data-Heavy) **Audience:** Both **CTA:** Medium (link to full report in comments) **Landing:** Blog or realestate.wtpref.com **Description:** ROI by area. Downtown vs Marina vs RAK vs Expo City. Rental yields, capital appreciation (3-year), total cost of ownership. 6 slides: hook, ROI comparison table, yield chart, appreciation chart, "what the data tells us," CTA. Pure value, no pitch.

Week 4

Post 4.1 — Monday

Pillar: Partner Playbook **Title/Hook:** "Your client wants Dubai property? Ask these 3 questions first." **Format:** Text (Framework for Advisors) **Audience:** B2B (Partners) **CTA:** Medium (download Partner Guide in comments) **Landing:** partners.wtpref.com **Description:** For wealth managers, tax advisors. 3 questions: (1) Can they open a UAE bank account? (2) What's their tax residency plan? (3) What's the ownership structure (personal vs LLC)? Gives partners a framework to qualify clients. Positions WTP as advisor-to-advisors.

Post 4.2 — Wednesday

Pillar: Banking + RE Synergy **Title/Hook:** "I turned down a \$5M deal last week. Here's why." **Format:** Text (Story / Values) **Audience:** Both **CTA:** Soft (storytelling, no hard ask) **Landing:** realestate.wtpref.com **Description:** Client wanted to buy luxury villa. Source of funds unclear, banking pre-screen failed, unwilling to provide documentation. WTP walked away. Message: we prioritize compliant, bankable deals over commissions. Trust signal through selectivity.

Post 4.3 — Friday

Pillar: Investment Intelligence **Title/Hook:** "Company structure for property: LLC vs personal name — the real math." **Format:** Document / Carousel (Comparison) **Audience:** Both **CTA:** Hard (book structure consultation) **Landing:** realestate.wtpref.com or wtpref.com (corporate synergy) **Description:** Personal ownership vs UAE LLC ownership. Tax implications (UK/DE/NL context), exit tax, estate planning, visa eligibility, resale. 5-slide comparison table. Synergy play: positions RE + Corporate as integrated offering. Clear differentiator vs other agents.

Weeks 2-4: Additional Posts (Tue/Thu slots)

Week 1 additional:

- **Tue:** Infographic — "The Banking-First Method™" (3 steps, visual framework, branded)
- **Thu:** Text — "3 questions every advisor should ask before referring a client to Dubai RE"

Week 2 additional:

- **Tue:** Carousel — "The Bankable Investor Checklist™" (6-point SOF + eligibility framework)
- **Thu:** Text — "What Wegzugsteuer means for your German HNWI clients (and how to structure around it)"

Week 3 additional:

- **Tue:** Infographic — "Dubai property: cost of ownership breakdown (the fees nobody mentions)"
- **Thu:** Text — "The off-plan conversation: what to say when your client asks about Sobha or Damac"

Week 4 additional:

- **Tue:** Carousel — "Personal name vs. UAE LLC: tax impact by jurisdiction" (comparison table)
 - **Thu:** Text — "What happened when I told a client to wait 6 months before buying" (values story)
-

Content Mix Summary (Updated for 5x/week)

METRIC	COUNT	%
Total Posts	20	100%
Carousels/Infographics	10	50%
Text (Story/Case/How-To)	8	40%
Document posts	2	10%

CORE TOPIC	COUNT	%
UAE Banking & Property Integration	8	40%
Golden Visa & Tax-Compliant Relocation	6	30%
Dubai Investment Intelligence	6	30%

AUDIENCE	COUNT
Both	10
B2C (Investors)	6
B2B (Partners)	4

CTA TYPE	COUNT
Soft (question/engagement)	7
Medium (link/lead magnet in comments)	9
Hard (book call)	4

Distribution Strategy

Publishing Schedule (5x/week):

- Monday 09:00 GMT+4 — Banking/Synergy content
- Tuesday 14:00 GMT+4 — Infographic/Carousel (framework)
- Wednesday 09:00 GMT+4 — Market data / contrarian take
- Thursday 14:00 GMT+4 — Education / advisory content
- Friday 11:00 GMT+4 — Partner-focused or values story

Test different times over 4 weeks, then optimize based on impression/engagement data. **Engagement Protocol (30 min/day — non-negotiable):**

- Respond to all comments within 2 hours (5 min)
- Comment substantively on 5-10 target profiles (15 min) — UK/DE/NL tax advisors, Dubai RE influencers, wealth managers, family offices
- DM warm leads (engaged 2+ times) within 24-48 hours (5 min)
- Share/repost 1 relevant piece with added WTP insight (5 min)

Algorithm note: "Great post!" comments are ignored by 360 Brew. Only substantive comments (adding insight, sharing experience, asking follow-up) count. **Amplification:**

- Boost top-performing post of the week (\$50-100, 7 days)

- Share to WTP company page with separate copy (not just reshare)
- Tag relevant individuals (with permission) in partner case studies

Lead Magnet Strategy:

- Week 1: "Banking-First Method"" one-page PDF (gate with email)
- Week 2: "Bankable Investor Checklist"" PDF
- Week 3: "Dubai ROI Calculator" (interactive, realestate.wtpref.com)
- Week 4: "Partner Guide: 3-Question Filter" PDF
- All shared in comments, not in post body (LinkedIn penalizes external links in main post)

Success Metrics (Week 4 Targets)

METRIC	TARGET
Total impressions (12 posts)	5,000+
Avg engagement rate per post	3%+
Comments received	30+
DMs initiated (from content)	5-8
Leads captured (form/WhatsApp)	2-4
Newsletter subscribers (if launched)	20+

Content Development Notes

Voice Consistency:

- Always first person ("I", "we", "my client")
- Clinical precision: "47% YoY" not "massive growth"
- No hype: "worth considering" not "unmissable opportunity"
- No emojis in body (optional sparingly in CTA line)

Proof Points to Weave In:

- WTP corporate track record (banking-first model proven)
- Partner network (already operational)
- Real case numbers (anonymized, percentage-based)
- Regulatory knowledge (Golden Visa updates, compliance)

What to Avoid:

- Guaranteed returns
- "Cheapest," "fastest," "easiest"
- Offshore language
- "We'll handle everything" (implies hand-holding, not partnership)
- Stock property photos (if visual needed, use charts/data)

Next Steps After Week 4

1. **Analyze performance:** Which pillar/format drove most engagement? Most leads?

2. **Scale winners:** Double down on high-performing content types
3. **A/B test CTAs:** Soft vs Medium vs Hard — which converts better per audience?
4. **Launch newsletter:** If 20+ subscribers by Week 4, launch "Dubai RE Market Insider"
5. **Prepare Month 2 calendar:** Incorporate learnings, add seasonal relevance
