## Video 1: "Golden Visa Through Property in 2026: Complete Guide"

**Target Duration:** 12-15 minutes **Primary Keyword:** "Golden Visa Dubai property 2026" **Secondary Keywords:** "buy property Dubai Golden Visa", "2M AED property visa", "UAE Golden Visa real estate" **Target Audience:** HNWI investors, relocators (UK/DE/NL), Golden Visa seekers **Goal:** Rank #1 for "Golden Visa Dubai property" + establish authority + generate pre-screen leads

### FULL SCRIPT

#### HOOK (0:00 - 0:30)

##### [ON SCREEN]

- Face to camera, office or neutral background
- Confident, direct eye contact

##### [AUDIO — Talking Head]

"Ninety percent of people applying for Golden Visa through property hit the same roadblock. And it's not what you think.

It's not the property price. It's not the visa fees. It's not the application process.

It's the bank account.

If you don't solve banking BEFORE you buy the property, you're setting yourself up for a very expensive problem.

I'm going to show you the complete process — the parts every agent tells you, and the parts they don't."

##### [B-ROLL INSERT during last sentence]

- Quick cuts: Dubai skyline, property exterior, bank building, visa stamping (stock footage or client footage with permission)

#### AGENDA (0:30 - 2:00)

##### [ON SCREEN]

- Face to camera OR screen recording showing chapter list

##### [AUDIO — Talking Head]

"Here's what we're covering in this video.

First: the exact requirements. How much do you need to spend? What property types qualify? What's the timeline?

Second: the step-by-step process. From banking pre-screen all the way to visa stamping. Every single step.

Third: what nobody tells you. The banking trap. Exit tax from your home country. Substance requirements. The hidden costs.

And fourth: how we do it differently at WTP. I'll walk through a real anonymized case — UK investor, 3 million dollar budget, six-week timeline from first call to Golden Visa approval.

Let's start with the basics."

##### [GRAPHICS]

- Chapter list appears on screen:

1. Requirements 2. The Process 3. What Nobody Tells You 4. How WTP Does It 5. Next Steps

---

## CHAPTER 1: REQUIREMENTS (2:00 - 5:00)

### [ON SCREEN]

- Graphic: "Chapter 1: Requirements" (2 seconds)
- Return to face/camera

### [AUDIO — Talking Head]

"Golden Visa through property. Let's break down the requirements.

#### **Requirement number one: property value.**

Your property must be worth at least 2 million dirhams. That's about 545,000 US dollars at current exchange rates.

This can be one property or multiple properties. If you buy two apartments at 1 million dirhams each, that qualifies.

Important: the 2 million threshold is the PURCHASE price, not the mortgage amount. If you're financing, you still need to show that the total property value hits 2 million."

### [GRAPHICS INSERT]

- Text on screen: "2,000,000 AED = ~\$545,000 USD"
- Visual: property icon with "2M AED" label

### [AUDIO — Talking Head continues]

#### **"Requirement number two: property type.**

It has to be a ready property — meaning completed, handed over, you can move in.

OR it can be off-plan, BUT only from an approved developer.

Not every developer is approved for Golden Visa. The government maintains a list. If you buy off-plan from a developer not on that list, your visa application will be rejected. So verify this before you sign anything."

### [GRAPHICS INSERT]

- Split screen: "Ready Property ✅" vs "Off-Plan (Approved Developer Only) ✅"
- Small text at bottom: "Verify developer approval status before SPA"

### [AUDIO — Talking Head continues]

#### **"Requirement number three: timeline.**

From the day your property transaction is registered with the Dubai Land Department, your Golden Visa application takes 4 to 8 weeks to be approved.

That's AFTER you close on the property. A lot of people think the visa comes instantly. It doesn't.

You also need a UAE bank account before you can apply. More on that in a minute."

### [GRAPHICS INSERT]

- Timeline graphic:

- Property closes → Week 0 - Submit visa application → Week 1 - Visa approved → Week 4-8 [AUDIO — Talking Head continues]

#### **"Requirement number four — the one that trips people up: banking.**

You must have a UAE bank account to apply for Golden Visa.

But here's the problem. Most banks require proof of UAE residency to open an account. And you need the account to GET residency.

Catch-22.

There are ways around this, but 90% of property buyers don't know about them until they're already committed to the purchase. That's the trap."

### [GRAPHICS INSERT]

- Red circle with line through it: "No UAE account = No Golden Visa"

- Text: "Solve banking FIRST"

**[AUDIO — Talking Head]**

"So those are the four core requirements. Two million dirhams. Ready or approved off-plan. Four to eight weeks post-purchase. And a bank account — which is harder than it sounds.

Now let's walk through the actual process."

---

**CHAPTER 2: THE PROCESS STEP-BY-STEP (5:00 - 8:00)**

**[ON SCREEN]**

- Graphic: "Chapter 2: The Process" (2 seconds)
- Return to face/camera

**[AUDIO — Talking Head]**

"Here's the step-by-step process we use at WTP. And I'm going to tell you why we do it in this order — because the order matters.

**Step one: banking pre-screen.**

Before you even look at properties, we check: can you open a UAE bank account?

We submit your profile to our banking partners. They review your source of funds, your residency history, your business structure if you have one. Within 48 hours, we know: yes, you can get an account, or no, you need to restructure first.

If it's a no, we fix the structure. THEN you look at properties.

Why do we start here? Because if you can't get a bank account, you can't get Golden Visa. And if you find that out AFTER signing a 2 million dirham purchase agreement, you're in trouble."

**[GRAPHICS INSERT]**

- Flowchart:  
- Banking pre-screen →  Approved → Continue - Banking pre-screen →  Issues → Restructure → Continue
- Text: "48-hour pre-screen process"

**[AUDIO — Talking Head continues]**

**"Step two: ownership structure.**

Do you buy the property in your personal name or in a company name?

This depends on your tax situation in your home country.

If you're from Germany and you have exit tax exposure, buying in a company might be better.

If you're from the UK with non-dom status changing, personal ownership might make more sense for clean tax residency.

Most agents don't ask this question. They just default to personal name because it's simpler. But 'simpler' isn't always 'optimal.'"

**[GRAPHICS INSERT]**

- Split screen:  
- Left: "Personal Name" (icon: single person) - Right: "Company Name" (icon: building/LLC)
- Text below: "Depends on YOUR tax situation"

**[AUDIO — Talking Head continues]**

**"Step three: property selection.**

Now — and only now — do we start looking at properties.

We match properties to your goals. Are you buying for capital appreciation? Rental yield? Substance requirements? Golden Visa only?

Different goals = different properties.

You tour. You shortlist. You negotiate. You sign the Sale and Purchase Agreement."

**[B-ROLL INSERT]**

- Property viewing footage (walk-through, exterior shots)

- Signing documents (stock or real footage, anonymized)

**[AUDIO — Talking Head continues]**

**"Step four: property registration.**

Your property transaction gets registered with the Dubai Land Department. This is the official closing.

At this point, you own the property. You get the title deed."

**[GRAPHICS INSERT]**

- Icon: document with "Title Deed" label + checkmark

**[AUDIO — Talking Head continues]**

**"Step five: visa application.**

With the title deed and your bank account confirmed, you submit the Golden Visa application.

This includes medical tests, Emirates ID application, biometric data.

Four to eight weeks later, your Golden Visa is approved."

**[GRAPHICS INSERT]**

- Timeline visual: Title Deed → Medical → Emirates ID → Visa Approval (4-8 weeks)

**[AUDIO — Talking Head continues]**

**"Step six: visa stamping and Emirates ID.**

You go to the immigration office. Your passport gets stamped with the Golden Visa. You collect your Emirates ID.

You're done. You now have a 10-year renewable residence visa in the UAE."

**[B-ROLL INSERT]**

- Passport stamping (stock footage or real with blur)
- Emirates ID card (generic image)

**[AUDIO — Talking Head]**

"That's the process. Six steps. Sounds simple, right?

It is simple — if you do it in the right order.

Now let me show you what happens when you do it in the WRONG order. And what most people don't realize until it's too late."

---

## **CHAPTER 3: WHAT NOBODY TELLS YOU (8:00 - 11:00)**

**[ON SCREEN]**

- Graphic: "Chapter 3: What Nobody Tells You" (2 seconds)
- Return to face/camera, serious expression

**[AUDIO — Talking Head]**

"This is the section most agents skip. Because it makes the sale harder.

But if you're spending half a million dollars or more, you need to know this.

**Number one: the banking problem.**

I mentioned this earlier. Let me give you a real example.

Client from Munich. Bought a 2 million dirham apartment through a different agent. Paid the 10% deposit. Signed the SPA. Closing in 30 days.

Week three, he goes to open a bank account. The bank asks for his source of funds documentation.

He provides it. The bank says: this doesn't meet our compliance requirements. We can't open an account.

He calls the agent. The agent says: that's not my problem, go to another bank.

He goes to another bank. Same answer.

Now he's 21 days from closing. He can't get a bank account. Without the account, he can't apply for Golden Visa. But he's already locked into the purchase.

He came to us. We reviewed his situation. The issue was fixable — his source of funds needed to be documented differently, and he needed a specific bank that works with his profile. We solved it. But if he'd come to us BEFORE signing the SPA, it would have been a 48-hour process instead of a three-week scramble."

#### [B-ROLL INSERT]

- Stock footage: person stressed, looking at documents
- Bank exterior
- Calendar pages flipping (time pressure visual)

#### [AUDIO — Talking Head continues]

"Lesson: 40% of property buyers in Dubai face banking issues AFTER they've committed to the purchase. You can avoid this by doing a banking pre-screen first. It's free. It takes 48 hours. It saves you six figures in problems.

#### Number two: exit tax.

If you're relocating from Germany, the UK, the Netherlands, or certain other countries — buying property in Dubai doesn't automatically erase your tax obligations back home.

Germany has Wegzugsteuer — exit tax on unrealized gains if you move abroad.

The UK just changed non-dom rules — if you don't structure your exit correctly, you could still be liable for UK tax.

Netherlands has Box 3 wealth tax that follows you even after you leave unless you establish proper tax residency elsewhere.

Buying a property in Dubai is not the same as becoming a UAE tax resident. You need substance. That means living here a minimum number of days per year, having economic ties, potentially having a business here.

Most property agents don't know this. Or they know it and don't mention it because it complicates the sale.

We start with it. Because if we don't help you structure the exit from your home country correctly, the Golden Visa is only half the solution."

#### [GRAPHICS INSERT]

- Map of Europe with UK, DE, NL highlighted
- Text: "Exit tax, non-dom changes, Box 3 wealth tax"
- Arrow pointing to UAE: "Proper structure required"

#### [AUDIO — Talking Head continues]

#### "Number three: substance requirements.

UAE tax residency isn't automatic just because you own property.

You need to spend at least 183 days per year in the UAE. Or 90 days if you meet other criteria.

You need economic substance. That could mean a UAE company, a UAE employment contract, or significant business activity here.

If you don't meet substance requirements, you're not a UAE tax resident for treaty purposes — even if you have Golden Visa.

This matters if your home country challenges your residency status."

#### [GRAPHICS INSERT]

- "UAE Tax Residency Requirements" checklist:

- ☒ 183 days/year in UAE (or 90 + other criteria) - ☒ Economic substance (business, employment, property) - ☒ Proper documentation

#### [AUDIO — Talking Head continues]

#### "Number four: holding costs.

You buy the property. Great. Now you own it.

Every year, you're paying:

- Service charges (maintenance fees) — anywhere from 10 to 30 dirhams per square foot per year
- DEWA (utilities) — even if you're not living there full-time
- Property management fees if you're renting it out
- Potentially homeowners association fees

On a 2 million dirham apartment, your annual holding costs might be 30,000 to 60,000 dirhams. That's 8,000 to 16,000 US dollars per year.

Factor that into your ROI calculation."

#### [GRAPHICS INSERT]

- "Annual Holding Costs" table:
- Service charges: 10-30 AED/sqft - DEWA: ~5,000-15,000 AED/year - Property management: 5-10% of rental income - Total: ~30,000-60,000 AED/year for 2M property [AUDIO — Talking Head]
- "And number five: exit strategy.

What happens if you need to sell the property in three years?

- Is there a liquid market for resale?
- What are the transaction costs? (Agent fees, Dubai Land Department fees, etc.)
- Does your Golden Visa stay active after you sell?

Answer to the last one: no. If you sell the property and don't replace it with another 2 million dirham asset, your Golden Visa gets revoked. So if your plan is 'buy property, get visa, sell property in two years' — that doesn't work. The visa is tied to the asset."

#### [GRAPHICS INSERT]

- "Exit Considerations" list:
- Resale liquidity - Transaction costs (5-7% total) - Golden Visa status (tied to asset ownership) [AUDIO — Talking Head]
- "These are the five things most agents don't tell you. Because they complicate the story. But you need to know them before you commit half a million dollars."

---

## CHAPTER 4: HOW WTP DOES IT DIFFERENTLY (11:00 - 14:00)

### [ON SCREEN]

- Graphic: "Chapter 4: How WTP Does It" (2 seconds)
- Return to face/camera

### [AUDIO — Talking Head]

"So how do we do it differently?

Three things.

#### **One: banking-first approach.**

We don't show you a single property until we've confirmed you can open a UAE bank account.

Why? Because if you can't get the account, the whole thing falls apart. So we solve the hardest problem first.

48-hour banking pre-screen. We work with multiple banks. We know which banks work with which profiles. German source of funds? We know the bank. UK salary income? We know the bank. Crypto gains? We know the bank.

This is the piece that 8,000 other agents in Dubai don't do. Because they're real estate agents. We're an integrated advisory. We handle corporate services, banking, visa, AND property. So we see the full picture."

### [GRAPHICS INSERT]

- WTP service map visual:
- Banking → Company → Visa → Property (all connected, integrated)
- Text: "One partner for the entire UAE entry"

### [AUDIO — Talking Head continues]

"**Two: structure-first, not property-first.**

Before we talk about which building or which neighborhood, we talk about YOUR situation.

Where are you moving from? What's your tax exposure in your home country? Do you need a company structure or personal ownership? What's your timeline? What's your exit strategy?

We structure the transaction around your goals. Not around what gives us the highest commission."

## **[B-ROLL INSERT]**

- Consultant meeting (stock or staged footage)
- Documents, planning session

## **[AUDIO — Talking Head continues]**

"Three: full-service integration.

You don't get handed off to five different providers.

Company setup? We do it.

Banking? We do it.

Visa application? We do it.

Property selection? We do it.

Property management after you buy? We do it.

One point of contact. One coordinated timeline. No dropped balls.

Let me give you a real example."

## **[AUDIO — Talking Head continues, case study]**

"Client from London. UK non-dom regime changing. He needed to relocate. Budget: 3.5 million dollars.

Here's what we did.

Step one: banking pre-screen. Submitted his profile to three banks. Two approved him within 48 hours.

Step two: structure assessment. We determined that buying the property in his UAE company name was optimal for his UK exit tax situation. Personal ownership would have triggered a different tax treatment.

Step three: property selection. He wanted both Golden Visa AND rental income. We showed him properties in areas with 7%+ yields. He picked a villa in a gated community. Price: 2.8 million dirhams.

Step four: company setup and bank account opening. We set up his UAE LLC. Opened his business bank account. This took two weeks.

Step five: property purchase. SPA signed. Transaction registered with Land Department. He got the title deed.

Step six: Golden Visa application. Medical done. Emirates ID applied. Visa approved in five weeks.

Total timeline from his first call to us to Golden Visa approval: six weeks.

No surprises. No delays. No 'sorry, the bank said no.'"

## **[GRAPHICS INSERT]**

- Case study timeline visual:

- Week 1: Banking + structure - Week 2-3: Company + account - Week 4: Property purchase - Week 5-6: Visa approval

- Text: "6 weeks, first call to Golden Visa"

## **[AUDIO — Talking Head]**

"That's the WTP approach. It's not faster because we cut corners. It's faster because we handle all the pieces in parallel instead of sequentially. And we solve the hard problems — banking, structure, tax — FIRST."

---

## **SUMMARY + CTA (14:00 - 15:00)**

### **[ON SCREEN]**

- Face to camera, confident, closing energy

## **[AUDIO — Talking Head]**

"Alright, let's recap.

Golden Visa through property in 2026. You need 2 million dirhams. Ready property or approved off-plan. Four to eight weeks for visa approval after closing.

The process: banking pre-screen, structure decision, property selection, registration, visa application, stamping.

What nobody tells you: banking is the hardest part. Exit tax from your home country matters. Substance requirements matter. Holding costs and exit strategy matter.

How we do it differently: banking-first, structure-first, full-service integration. One partner for the whole thing.

If you're considering Golden Visa through property, here's what I recommend.

Book a free pre-screen call with us. We'll review your situation. We'll tell you if you can get a UAE bank account. We'll outline the optimal structure for your tax situation. And we'll give you a realistic timeline and cost breakdown.

No sales pitch. Just honest advice.

Link is in the description. WhatsApp number is there too.

And if this video was helpful, do me a favor — share it with someone who's thinking about moving to Dubai. A lot of people are getting bad advice from agents who don't understand the full picture. Let's fix that.

Thanks for watching. See you in the next one."

#### **[B-ROLL INSERT during last 10 seconds]**

- WTP logo
- Dubai skyline (sunset or iconic view)

#### **[END SCREEN]**

- Subscribe button
  - Next suggested video (thumbnail for Video 2: "RAK vs Dubai")
  - Link to website in card
- 

## **B-ROLL SUGGESTIONS**

### **Generic footage needed (reusable across videos):**

1. Dubai skyline (multiple angles: Downtown, Marina, Palm)
2. Property exteriors (villa, apartment building, luxury tower)
3. Property interiors (living room, kitchen, balcony with view)
4. Bank building exterior (generic, no logo)
5. Office meeting/consultation (staged or stock)
6. Person signing documents (hands only, anonymized)
7. Passport/visa stamping (stock footage or recreated with blur)
8. Emirates ID card (generic image or recreated)
9. Dubai streets, infrastructure (metro, roads, landmarks)
10. Calendar pages flipping (time passage visual)

### **Specific footage for this video:**

- Dubai Land Department building (for "registration" section)
- Medical clinic exterior (for "medical test" mention)
- Immigration office exterior (for "visa stamping")

### **Screen recordings:**

- Chapter list graphic
  - Timeline graphics
  - Banking pre-screen flowchart
  - Ownership structure comparison table
  - Cost breakdown table
- 

## **GRAPHICS NEEDED (Canva or After Effects)**

1. **Chapter title cards** (simple, clean):  
- "Chapter 1: Requirements" - "Chapter 2: The Process" - "Chapter 3: What Nobody Tells You" - "Chapter 4: How WTP Does It"

### 1. Requirements infographic:

- 2M AED threshold - Property types (ready vs off-plan) - Timeline (4-8 weeks) - Banking requirement

### 1. Process flowchart:

- 6 steps with icons and arrows

### 1. Banking pre-screen flow:

- Submit → Review → Approved  or Issues  → Restructure → Continue

### 1. Ownership structure comparison:

- Personal vs Company (pros/cons table or split-screen)

### 1. Exit tax map:

- Europe map with UK/DE/NL highlighted + tax types labeled

### 1. Substance requirements checklist:

- 183 days/year - Economic ties - Documentation

### 1. Holding costs table:

- Service charges, DEWA, property management, total

### 1. Case study timeline:

- 6-week timeline with milestones marked

### 1. WTP service integration visual:

- Banking + Company + Visa + Property (all connected)

---

## YOUTUBE DESCRIPTION (280 words)

..

Golden Visa Through Property in 2026: The Complete Guide

Thinking about getting UAE Golden Visa by buying property in Dubai? This is the only guide you need – covering everything agents WON'T tell you.

In this video:

-  Exact requirements (2M AED, property types, timeline)
-  Step-by-step process from banking to visa approval
-  What nobody tells you: banking roadblocks, exit tax, substance
-  How to structure ownership for YOUR tax situation
-  Real case: UK investor, 6-week timeline, zero delays

THE #1 MISTAKE: Signing the property agreement before checking if you can open a UAE bank account. 40% of buyers face this problem. We solve it with a free 48-hour banking pre-screen.

WTP Boutique Real Estate is not a typical agency. We're an integrated advisory firm: company setup + banking + visa + property – all in one package. We don't sell square meters. We build investor infrastructure.

### TIMESTAMPS:

- 0:00 – Hook: The banking trap
- 0:30 – What you'll learn
- 2:00 – Chapter 1: Requirements (2M AED, property types, timeline)
- 5:00 – Chapter 2: The step-by-step process
- 8:00 – Chapter 3: What nobody tells you (banking, exit tax, substance)
- 11:00 – Chapter 4: How WTP does it differently
- 14:00 – Summary & next steps

## Video 2: "RAK vs Dubai: Where to Invest in 2026?"

**Target Duration:** 10-12 minutes **Primary Keyword:** "RAK property investment 2026" **Secondary Keywords:** "RAK vs Dubai property", "Al Marjan Island investment", "Ras Al Khaimah real estate" **Target Audience:** Property investors comparing Dubai vs RAK, capital growth seekers, holiday home investors **Goal:** Rank for comparison keywords + position WTP as data-driven advisors + generate investor consultation leads

---

### FULL SCRIPT

---

#### HOOK (0:00 - 0:30)

##### [ON SCREEN]

- B-roll: Split-screen – Al Marjan Island beach (left) vs Dubai Marina towers (right)
- Bold text overlay: "RAK +47% vs Dubai +15%"

##### [AUDIO – Voiceover over B-roll]

"RAK property prices jumped 47% last year.

Dubai? Fifteen percent.

Wynn Casino is opening in RAK in 2027. When Wynn opened in Las Vegas, nearby property values doubled in three years.

So is RAK the next big thing? Or overhyped?

Let's look at the data. Not opinions. Data."

##### [ON SCREEN]

- Cut to face/camera, direct look
  - Text overlay: "Data, not opinions"
- 

#### AGENDA (0:30 - 1:30)

[ON SCREEN]

- Face to camera

[AUDIO – Talking Head]

"In this video, I'm comparing RAK – specifically Al Marjan Island – to Dubai across five factors.

One: price. What do you pay per square foot? What's the entry price?

Two: rental yields. What's your cash-on-cash return?

Three: capital appreciation. What's the growth potential over the next five years?

Four: infrastructure. Wynn Casino, roads, airport, short-term rental regulations.

And five: banking and Golden Visa. Does RAK work the same way as Dubai for visa and banking purposes?

At the end, I'll give you my take. Not 'one is better than the other' – but which one fits YOUR investment goals.

Let's start with price."

[GRAPHICS INSERT]

- Comparison framework on screen:

- Price - Rental Yield - Capital Appreciation - Infrastructure - Banking & Visa

---

## CHAPTER 1: PRICE COMPARISON (1:30 - 4:00)

[ON SCREEN]

- Graphic: "Price Comparison" (2 seconds)
- Return to face/camera

[AUDIO – Talking Head]

"Price per square foot.

Let's compare apples to apples. Waterfront properties. Because Al Marjan Island in RAK is beachfront, so we'll compare it to Dubai Marina or Palm Jumeirah.

**Al Marjan Island, RAK:** Average price per square foot: 800 to 1,200 dirhams. Entry price for a 1-bedroom apartment: around 600,000 to 800,000 dirhams. That's \$163,000 to \$218,000 USD. **Dubai Marina:** Average price per square foot: 1,400 to 1,800 dirhams. Entry price for a 1-bedroom: 1.2 to 1.5 million dirhams. That's \$327,000 to \$408,000 USD. **Palm Jumeirah:** Even higher. 2,000 to 2,500 dirhams per square foot. Entry price: 2 million dirhams and up. So RAK is 30 to 50% cheaper than comparable waterfront areas in Dubai."

[GRAPHICS INSERT]

- Bar chart comparing price/sqft:

- Al Marjan: 800-1,200 AED - Dubai Marina: 1,400-1,800 AED - Palm Jumeirah: 2,000-2,500 AED [AUDIO – Talking Head continues]

"Now let's look at price trends.

**RAK:** Prices up 47% year-over-year. That's 2025 to 2026 data. **Dubai Marina:** Up 15%. **Downtown Dubai:** Up 12%. RAK is outperforming by three times.

Why? Wynn Casino announcement. Infrastructure investment. Low starting base – it's playing catch-up to Dubai."

[GRAPHICS INSERT]

- Line graph: Price growth 2020-2026

- RAK: steep upward curve - Dubai Marina: moderate upward curve

- Highlight: 2025-2026 spike for RAK (+47%)

[AUDIO – Talking Head]

"So on price: RAK is cheaper to enter AND appreciating faster. Point goes to RAK."

---

## CHAPTER 2: RENTAL YIELDS & ROI (4:00 - 6:30)

### [ON SCREEN]

- Graphic: "Rental Yields & ROI" (2 seconds)
- Return to face/camera

### [AUDIO – Talking Head]

"Rental yields. How much rental income do you generate versus your purchase price?"

**Al Marjan Island, RAK:** If you run it as a holiday home – short-term rental, Airbnb-style – gross yields are 8 to 10%. Why so high? Tourist demand. Beach location. Limited supply of quality holiday homes in RAK.

If you run it as long-term rental, yields drop to 6 to 7%. Still decent.

**Dubai Marina:** Long-term rental yields: 6 to 7%. Short-term rental yields: 7 to 8% (if you're allowed – more on regulations in a minute).

But here's the catch. Dubai Marina is saturated. Tons of supply. Yields have been compressing for the past two years."

### [GRAPHICS INSERT]

- Comparison table:

- RAK (holiday home): 8-10% - RAK (long-term): 6-7% - Dubai Marina (long-term): 6-7% - Dubai Marina (STR): 7-8% [AUDIO – Talking Head continues]

"Now let's talk total ROI. That's rental yield PLUS capital appreciation.

Let's project five years out.

### RAK scenario:

- Purchase price today: 700,000 AED
- Rental yield: 9% average (holiday home model)
- Capital appreciation: 30% over 5 years (conservative, given current growth)
- Total ROI: ~75% (rental income + appreciation)

### Dubai Marina scenario:

- Purchase price today: 1.4 million AED
- Rental yield: 6.5%
- Capital appreciation: 15% over 5 years (mature market)
- Total ROI: ~48%"

### [GRAPHICS INSERT]

- Side-by-side projection:

- RAK: 75% total ROI (5 years) - Dubai Marina: 48% total ROI (5 years) [AUDIO – Talking Head]

"RAK wins on yield. RAK wins on total ROI. But – and this is important – RAK is higher risk.

Why? Less liquidity. Smaller resale market. Infrastructure still developing. If you need to sell in two years, Dubai is easier.

So: higher return, higher risk. That's the trade-off."

---

## CHAPTER 3: WYNN CASINO EFFECT & INFRASTRUCTURE (6:30 - 9:00)

### [ON SCREEN]

- Graphic: "Wynn Casino & Infrastructure" (2 seconds)
- B-roll: Wynn Casino render (if available) OR Las Vegas Wynn property exterior

### [AUDIO – Voiceover over B-roll]

"Let's talk about the Wynn effect."

Wynn Resorts is opening a \$3.9 billion integrated resort in RAK. Casino, hotel, beach club, residences. Opening 2027.

What happened in other markets when Wynn opened?"

[GRAPHICS INSERT]

- Comparison data on screen:

- Las Vegas (Wynn opened 2005): nearby property +120% in 3 years - Macau (Wynn opened 2006): nearby property +95% in 3 years [AUDIO – Voiceover continues]

"Las Vegas: When Wynn opened in 2005, property values within 2 miles doubled in three years.

Macau: Same story. Wynn Macau opened 2006. Nearby property values up 95% in three years.

Now, RAK is not Vegas or Macau. Smaller market. Different dynamics. But the pattern is clear: Wynn drives property values."

[ON SCREEN]

- Cut to face/camera

[AUDIO – Talking Head]

"What about infrastructure beyond the casino?

RAK has:

- Its own airport (RAK International). Direct flights from Europe, India, Russia.
- Upgraded road connections to Dubai (45 minutes by car).
- Marina developments. Al Marjan Island has multiple marinas under construction.
- Free zone for businesses. RAK Economic Zone is growing.

What RAK doesn't have yet:

- Metro. Dubai has metro. RAK doesn't. You need a car.
- Depth of amenities. Dubai has hundreds of restaurants, schools, hospitals. RAK is catching up but not there yet.

So if you're buying for personal use and you need urban amenities, Dubai wins.

If you're buying for investment and you can wait 3 to 5 years for infrastructure to mature, RAK is the play."

[B-ROLL INSERT]

- RAK infrastructure: roads, marina, airport
- Dubai metro, amenities (contrast)

[AUDIO – Talking Head continues]

"Now, short-term rentals.

RAK allows holiday home rentals. You can list on Airbnb, Booking.com, all the platforms. The government encourages it.

Dubai? Depends on the area. Some areas allow STR, some don't. You need a permit. It's more restrictive.

So if your model is holiday home rental income, RAK is the easier path."

[GRAPHICS INSERT]

- Table: STR regulations

- RAK: ✅ Allowed, encouraged - Dubai: ⚠️ Permitted in some areas, requires license

---

## CHAPTER 4: BANKING & GOLDEN VISA (9:00 – 11:00)

[ON SCREEN]

- Graphic: "Banking & Golden Visa Considerations" (2 seconds)
- Return to face/camera

**[AUDIO – Talking Head]**

"Does buying property in RAK work the same way as Dubai for banking and Golden Visa?

Short answer: yes.

**Golden Visa:** Property in RAK qualifies for Golden Visa the same as property in Dubai. As long as the value is 2 million dirhams or more, you're good.

The visa is issued by the UAE federal government, not by individual emirates. So RAK property = Dubai property = Abu Dhabi property for visa purposes.

**Banking:** When you apply for a UAE bank account, the bank doesn't care if your property is in RAK or Dubai. They care about your source of funds, your residency status, your business structure.  
So: no difference."

**[GRAPHICS INSERT]**

- Text on screen:

- "Golden Visa: RAK = Dubai  " - "Banking: RAK = Dubai  " **[AUDIO – Talking Head continues]**

"One thing to note: if you're financing the property with a mortgage, some banks have different LTV ratios for RAK versus Dubai.

Dubai Marina: you might get 75% LTV.

RAK: you might get 65% LTV.

That's because banks view RAK as slightly higher risk due to lower liquidity. But this is changing as RAK matures."

**[AUDIO – Talking Head continues]**

"Alright. Now for my take. RAK or Dubai? Here's how I see it."

---

**WTP RECOMMENDATION & DECISION FRAMEWORK (11:00 – 12:00)**

**[ON SCREEN]**

- Face to camera, direct and confident

**[AUDIO – Talking Head]**

"Here's my recommendation. And it's not 'one is better.' It's 'which one fits YOUR goals.'"

**Choose RAK if:**

- You want aggressive capital growth. You're betting on the Wynn effect and infrastructure development.
- You want high rental yields. Holiday home model, 8 to 10% gross yield.
- You have a 5-year minimum hold period. You're not flipping in two years.
- You're okay with higher risk, lower liquidity.

**Choose Dubai if:**

- You want stable, predictable yields. 6 to 7%, low volatility.
- You need liquidity. If you have to sell in three years, Dubai resale market is much deeper.
- You want amenities for personal use. You're living there part-time or full-time.
- You want lower risk. Mature market, established infrastructure.

**My pick for 2026?**

If you're a pure investor and you don't need to live in the property – RAK. Specifically, Al Marjan Island. Buy before Wynn opens. Exit 2028 to 2030.

If you're buying for Golden Visa AND you want a place to actually live when you visit – Dubai, but NOT Dubai Marina. Look at Expo City, Jumeirah Village Circle, or even Dubai Hills. Better value than Marina, still strong fundamentals."

**[GRAPHICS INSERT]**

- Decision matrix:

- RAK: High growth, high yield, high risk, low liquidity - Dubai: Moderate growth, moderate yield, low risk, high

liquidity [AUDIO – Talking Head continues]

"At WTP, we don't push you toward whichever property gives us the highest commission.

We structure your investment based on YOUR tax situation, your risk tolerance, your hold period, your exit strategy.

If that means we recommend a 700,000 dirham property in RAK instead of a 2 million dirham property in Dubai – so be it. We optimize for your outcome, not our fee.

That's the difference between an advisor and a salesperson."

---

## SUMMARY + CTA (12:00 - 13:00)

### [ON SCREEN]

- Face to camera

### [AUDIO – Talking Head]

"Let's wrap it up.

RAK: cheaper entry, higher yields, faster appreciation, Wynn Casino opening 2027. Higher risk, lower liquidity.

Dubai: stable yields, mature market, better amenities, easier resale. Lower risk, lower upside.

Both qualify for Golden Visa. Both work for banking.

Your choice depends on your goals.

If you want help deciding – or if you want a detailed ROI analysis for specific properties in RAK versus Dubai – link in the description. Book a free consultation.

We'll walk through your situation. No sales pitch. Just data and honest advice.

And if this video helped you, share it with someone who's comparing RAK and Dubai. A lot of investors are making decisions based on hype instead of numbers. Let's fix that.

Thanks for watching. See you in the next one."

## B-ROLL SUGGESTIONS

### RAK-specific footage:

1. Al Marjan Island aerial (beach, villas, construction)
2. RAK beach (sunset, clear water, palm trees)
3. RAK properties (modern villas, apartments)
4. RAK marina/yacht club
5. Wynn Casino site (construction or renders)
6. RAK airport exterior
7. Road from Dubai to RAK (highway)

### Dubai-specific footage:

1. Dubai Marina towers and waterfront

2. Palm Jumeirah aerial
3. Expo City Dubai (modern infrastructure, pavilions)
4. Dubai metro in motion
5. Dubai Mall, restaurants, amenities (urban lifestyle)
6. JVC or Dubai Hills (alternative areas mentioned)

#### Comparison visuals:

1. Split-screen: RAK beach vs Dubai Marina
  2. Map: UAE with RAK and Dubai marked, 45-min drive highlighted
  3. Price charts, rental yield charts, ROI projections (animated)
- 

## GRAPHICS NEEDED

### 1. Chapter title cards:

- "Price Comparison" - "Rental Yields & ROI" - "Wynn Casino & Infrastructure" - "Banking & Golden Visa" - "WTP Recommendation"

### 1. Price comparison bar chart:

- Al Marjan vs Dubai Marina vs Palm Jumeirah (AED/sqft)

### 1. Price growth line graph:

- 2020-2026 trends for RAK and Dubai

### 1. Rental yield comparison table:

- RAK (STR), RAK (LTR), Dubai Marina (LTR), Dubai Marina (STR)

### 1. 5-year ROI projection:

- Side-by-side: RAK 75% vs Dubai 48%

### 1. Wynn effect data:

- Las Vegas and Macau property value changes post-opening

### 1. STR regulations table:

- RAK vs Dubai (checkmarks and warnings)

### 1. Golden Visa & Banking comparison:

- RAK = Dubai (both green checkmarks)

### 1. Decision matrix:

## YOUTUBE DESCRIPTION (290 words)

` RAK vs Dubai: Where Should You Invest in 2026?

RAK property prices jumped 47% last year. Dubai Marina? 15%. Wynn Casino opens in RAK in 2027. Is this the next big opportunity – or overhyped?

In this video, I break down the DATA:

 Price comparison: RAK is 30-50% cheaper than Dubai waterfront

 Rental yields: RAK 8-10% (holiday homes) vs Dubai 6-7%

 Capital appreciation: RAK outperforming 3x

 Wynn Casino effect: Vegas and Macau property doubled post-opening

- 🇦🇪 Infrastructure: RAK airport, marinas, STR-friendly vs Dubai metro, amenities
- 🇦🇪 Banking & Golden Visa: Both work the same

MY TAKE:

- ✅ Choose RAK if: aggressive growth, high yields, 5+ year hold, okay with risk
- ✅ Choose Dubai if: stable income, liquidity, amenities, lower risk

This isn't "one is better." It's "which fits YOUR strategy."

At WTP, we don't push the property with the highest commission. We build your investment around your tax situation, risk tolerance, and exit plan.

📅 TIMESTAMPS:

- 0:00 – Hook: RAK +47% vs Dubai +15%
- 0:30 – What we're comparing
- 1:30 – Price comparison (RAK 30-50% cheaper)
- 4:00 – Rental yields & ROI (RAK 8-10%, Dubai 6-7%)
- 6:30 – Wynn Casino effect & infrastructure
- 9:00 – Banking & Golden Visa (both work)
- 11:00 – WTP recommendation & decision framework
- 12:00 – Summary & next steps

### THUMBNAIL CONCEPT

**Layout:**

- **Split-screen design**

**Left side (40%):**

- Al Marjan Island beach photo (bright, turquoise water, modern villa)
- Bold text overlay: "RAK"
- Small badge: "+47%" (green background)

**Right side (40%):**

- Dubai Marina towers photo (iconic skyline)
- Bold text overlay: "DUBAI"
- Small badge: "+15%" (yellow background)

**Center divider (20%):**

- Bold "VS" in large font
- Small presenter face in circle (bottom-center, overlapping the divider)

**Colors:**

- High contrast between left (bright beach blues) and right (urban grays/blues)
- "VS" in bright orange or red (attention-grabbing)
- Badges in green/yellow for visual comparison

**Font:**

- Bold, sans-serif (Montserrat Bold or Impact)
- All caps for RAK, DUBAI, VS

**Additional elements:**

- Small text at top or bottom: "Where to Invest 2026?" (smaller font, supporting context)

**Image specs:**

- 1280 × 720 pixels
  - High contrast, readable at thumbnail size
  - Test at 320px width (mobile view)
- 

### Production Timeline & Workflow

**Video 1 (Golden Visa):**

- Day 1: Script finalization, graphics prep (Canva)
- Day 2: Shooting (talking head segments, 2-3 hours)
- Day 3: B-roll collection (Dubai footage, property exteriors, 2-3 hours)
- Day 4-5: Editing (DaVinci Resolve or Final Cut, 6-8 hours)

- Day 6: Thumbnail design, description writing, uploading
- Day 7: Publish + promote on LinkedIn/Instagram

#### Video 2 (RAK vs Dubai):

- Repeat same workflow
- Additional: RAK-specific B-roll (requires travel to RAK, 1 day) OR use stock footage

**Total production time per video:** 6-8 hours (excluding B-roll travel)

---

## Next Steps

1. **Finalize scripts** (review with team, adjust for brand voice)
  2. **Create shot list** for each video (every camera angle needed)
  3. **Prep graphics in Canva** (all 10-12 graphics per video)
  4. **Schedule shooting day** (batch-record talking head for both videos in one session)
  5. **Collect B-roll** (Dubai footage reusable, RAK-specific for Video 2)
  6. **Edit Video 1 first** (publish, measure performance before Video 2)
  7. **Promote across channels** (LinkedIn post with video link, Instagram Reel teaser, email to partner list)
  8. **Track performance** (YouTube Analytics: watch time, CTR, traffic sources)
  9. **Iterate for Video 2** based on Video 1 learnings
