

landing-page-spec

Версия: 1.0

Дата: 2026-03-15

Цель: Конверсия Google Ads трафика → Form Submit / WhatsApp Contact

Target Conversion Rate: 5-7% (industry benchmark RE landing pages: 2-4%)

Executive Summary

Текущий realestate.wtpref.com требует оптимизации для конверсии платного трафика. Google Ads приводит высоко-интентных пользователей, но landing page должна:

1. **Захватить внимание** в первые 3 секунды (above-fold критичен)
2. **Подтвердить релевантность** — match messaging из ad copy
3. **Устранить трение** — форма должна быть видима и проста
4. **Построить доверие** — social proof, credentials, specifics
5. **Конвертировать** — минимум 2 CTA выше fold, WhatsApp всегда доступен

Этот документ — полная спецификация обновлённого лендинга: структура, копирайт, технические требования, A/B тесты.

⚠️ STATISTICS VERIFICATION — REQUIRED BEFORE LAUNCH

The following claims in this spec must be confirmed with WTP Operations before the landing page goes live:

- "300+ cases in 2025" — confirm actual number with WTP ops
- "94% bank approval rate" — confirm current rate with WTP ops
- "40% of buyers face banking problems" — source needed (internal data or industry report)
- "15+ partner banks" — confirm current bank partnership count

If any statistic cannot be verified, replace with softer language (e.g., "hundreds of cases", "high approval rate", "many buyers")

Above-Fold Requirements (первый экран)

Layout Structure

Headline (H1)

Primary (для Golden Visa traffic):

Golden Visa Through Property – Banking-First Approach

Alternative A (для Investment traffic):

Dubai Real Estate Investment – Structure First, Property Second

Alternative B (для Relocation traffic):

Relocate to UAE – Full Setup: Company + Bank + Visa + Property

Alternative C (для Structure/Banking traffic):

Can You Open a UAE Bank Account? Check Before You Buy

Правила headline:

- Включает main keyword из ad group
- Подтверждает обещание из ad copy
- Выгода или вопрос (не просто "WTP Real Estate")
- Длина: 60-80 символов (не больше 2 строк на desktop)

Sub-headline

Primary:

Unlike typical agents, WTP verifies your bank account eligibility BEFORE you sign any property agreement. We structure your entire UAE entry: company formation, banking, Golden Visa, and property selection-as one integrated service.

Alternative A (shorter):

We don't sell apartments. We structure investment infrastructure. Banking pre-screen in 48 hours. Free consultation.

Alternative B (problem-aware):

40% of Dubai property buyers discover banking problems after purchase. We check eligibility first-free 48h pre-screen for your situation.

Правила sub-headline:

- 20-30 слов (не paragraph)
- Подчёркивает differentiation (banking-first / integrated / not just agents)
- Конкретные цифры или timeframes ("48h", "300+ cases", "94% approval")

Lead Capture Form

Location: Right side on desktop (above fold), below headline on mobile **Fields (3 – launch version, minimal friction for cold Google Ads traffic):**

1. **Name** (text input, required)

- Label: "Your Name" - Placeholder: "John Smith" - Validation: min 2 chars

1. **Email** (email input, required)

- Label: "Email Address" - Placeholder: "you@example.com" - Validation: valid email format

1. **Phone** (tel input, required)

- Label: "Phone Number (with country code)" - Placeholder: "+44 7700 900000" - Validation: min 10 chars, starts with +

A/B Test after 50+ conversions: Add Country (dropdown), Budget Range (dropdown, optional), and Interest (dropdown) as Variant B. See Test 1 below. More fields = better lead qualification but higher friction. Launch with 3 fields first – cold Google Ads traffic converts poorly on long forms.

Submit Button:

- Text: "Get Free Pre-Screen" (primary CTA)
- Color: WTP gold (#C5A572) text on dark (#1A2332) background
- Size: Full-width on mobile, 60% width on desktop
- Hover state: subtle glow effect
- Loading state: "Submitting..." with spinner

WhatsApp Alternative CTA (below submit button):

- Text: "Prefer WhatsApp? Message Us Now →"
- Link: <https://wa.me/971600575294?text=Hi%2C%20I'm%20interested%20in%20Dubai%20property%20investment.%20I%20came%20from%20your%20website.>

- SI

Section Headline: How WTP Structures Your UAE Property Investment Process Steps:

_____ | _____ | Step 1 | → | Step 2 | → | Step 3 | → | Step 4 | _____ | _____ | _____

We assess your profile: source of funds, KYC documents, banking eligibility. You know if you can open a UAE account BEFORE looking at any property. Free, 48-hour turnaround.

Personal name or company? Freezone LLC or offshore holding? We analyze your tax situation (UK, DE, NL exit tax) and recommend optimal structure. Exit tax planning included.

While you search for property, we handle: company formation, bank account application, Golden Visa prep. Everything in parallel. No waiting for "step 1 to finish."

Property closing, title transfer, Golden Visa application, tax residency certificate. Then: ongoing compliance support, accounting, renewals. Long-term partnership.

Section Headline: 8,000 Agents in Dubai – What Makes WTP Different? Comparison Table:

TYPICAL AGENT	WTP BOUTIQUE REAL ESTATE
Sells property, commission ends	Advisory partnership: property + corporate + banking + visa + compliance
"Can you afford it?"	"Can you open a bank account? What's your tax situation?"
Shows apartments first	Checks banking eligibility first (free 48h pre-screen)
You handle company, visa, banking separately	Integrated: we handle everything in parallel
Generic service for everyone	Specialized: UK/DE/NL relocators, Golden Visa, exit tax structuring
No banking expertise	Part of WTP Group (banking specialists since [YEAR])
You discover problems after signing	We identify & fix problems BEFORE you commit
One-time transaction	Long-term compliance, accounting, renewals

Visual Design:

- Left column: muted colors, generic
- Right column: WTP brand colors, highlighted
- Checkmarks (✓) in WTP column, X or blank in Typical column for key rows

CTA after Section 2:

- Text link: "See how we work → [link to process document or video]"

Section 3: Case Studies (3 Anonymized)

Section Headline: Real Situations We've Solved **Case Study 1: UK Investor – Banking Rejection Fixed** ` Client Profile: UK entrepreneur, exiting due to non-dom changes Property Budget: £2.5M (~11M AED) Problem: Previous agent showed properties, client made offer, then UAE bank rejected account (unclear SOF from crypto exit) WTP Solution: 1) Restructured SOF documentation with UK accountant 2) Created UAE holding company (clean structure) 3) Introduced to bank comfortable with crypto backgrounds 4) Account approved in 3 weeks Result: Purchased 2BR Palm Jumeirah (investment) + Golden Visa Timeline: From first call to keys: 8 weeks ` **Case Study 2: German Family – Exit Tax Optimized** ` Client Profile: Family of 4, Munich, relocating to Dubai Property Budget: €1.8M (~7.2M AED) Problem: German Wegzugsteuer (exit tax) on worldwide assets Needed property for Golden Visa + timing optimization WTP Solution: 1) Tax advisor coordination (DE + UAE) 2) Timed property purchase AFTER official exit 3) Company setup for ownership (tax-efficient) 4) Family banking + school advisory Result: Purchased villa Expo City + 4x Golden Visas (parents + 2 kids) Exit tax minimized through structure & timing Timeline: 12 weeks (including tax planning) ` **Case Study 3: Dutch Investor – Commercial Property** ` Client Profile: Netherlands entrepreneur, Box 3 tax motivation Property Budget: €3M (~12M AED) for office space Problem: Wanted to own business premises (freezone office) Needed company structure + banking + visa WTP Solution: 1) Freezone company setup (DMCC) 2) Banking for corporate + commercial mortgage 3) Office purchase in company name 4) Golden Visa through commercial property Result: Owns 200sqm office DMCC, rents out 50% to other tenants Net cost after rental income: 60% of mortgage Timeline: 10 weeks from first call to move-in ` **Visual Design:**

- Cards: white background, subtle shadow
- Icons: Country flag small in corner
- Timeline: visual timeline bar (weeks 0 → result)
- "Problem" in red/orange, "Solution" in blue, "Result" in green

CTA after Section 3:

- "Your situation is unique. Let's discuss it. [Book Free Consultation]"

Section 4: Social Proof & Metrics

Section Headline: By The Numbers **Metrics (4-column grid on desktop, stack on mobile):** ` | 300+ | | 94% | | 48 hours | | 15+ | | Cases | | Approval | | Pre-Screen | | Partner | | in 2025 | | Rate | | Turnaround | | Banks | | ` **Metric 1: 300+ Cases in 2025** Subtext: "Investors from UK, DE, NL, CH, and 20+ other countries" **Metric 2: 94% Bank Approval Rate** Subtext: "Because we pre-screen and prepare documentation properly" **Metric 3: 48-Hour Pre-Screen** Subtext: "Free banking eligibility check – know before you commit" **Metric 4: 15+ Partner Banks** Subtext: "We know which banks accept your profile"

Additional Elements: Client Logos (if available):

- "Trusted by clients from:" [logos of client companies, anonymized]
- Альтернатива (если логотипов нет): "Industries we serve: Technology, Finance, Healthcare, Real Estate, Consulting"

Testimonial Quotes (2-3 short):

"WTP saved us from a disaster. We almost signed, then discovered we couldn't open an account. They checked banking first."

– German entrepreneur, relocated to Dubai 2025

"Finally, an agency that understands tax. They coordinated with our UK accountant and structured everything properly."

– UK family office, Golden Visa through property

"Not just property – they handled our company, visa, banking, everything. One partner, zero headaches."

– Dutch investor, commercial property DMCC

Visual: Quote cards, clean typography, client title (not name for anonymity)

Section 5: FAQ (8 Questions with Answers)

Section Headline: Frequently Asked Questions **FAQ Layout:** Accordion (click to expand). First 3 open by default, rest collapsed.

Q1: What is banking pre-screen and why do I need it?

A: 40% of Dubai property buyers discover they cannot open a UAE bank account AFTER purchasing property. This creates serious problems: you own real estate but can't transfer money, pay bills, or receive rental income.

Our banking pre-screen (free, 48 hours) assesses your profile: source of funds, KYC documents, country of origin, business activities. We tell you BEFORE you commit to any property: (1) Can you open an account? (2) Which banks are likely to accept you? (3) What documentation you need to prepare?

This prevents costly mistakes and saves months of frustration.

Q2: How is WTP different from other real estate agencies?

A: Most of the 8,000+ agencies in Dubai sell property and their job ends at commission. WTP is part of WTP Advisory Group – we specialize in corporate services, banking, and compliance.

Our integrated approach:

- We check banking eligibility FIRST (free pre-screen)
- We structure ownership (personal vs company, tax implications)
- We handle company formation + banking + visa + property in parallel
- We provide ongoing compliance support (not one-time transaction)
- We specialize in UK/DE/NL relocators (exit tax planning included)

You work with advisors, not just agents.

Q3: Do I need a company to buy property in Dubai, or can I buy in my personal name?

A: Both options are possible, but the optimal choice depends on your situation:

Personal name: Simpler, faster, lower upfront costs. Good for: single property for personal use, Golden Visa, straightforward tax situation. **Company name (UAE LLC or offshore holding):** Better for: multiple properties, tax optimization (especially UK/DE/NL investors), estate planning, rental income management, liability protection. We analyze your specific situation (country of origin, tax status, investment goals) and recommend the optimal structure. If you need a company, we handle formation as part of integrated service.

Exit tax from UK or Germany often makes company ownership more tax-efficient. We coordinate with your home country accountant.

Q4: What is Golden Visa and am I eligible?

A: UAE Golden Visa = 10-year residence visa for you, spouse, and children (renewable). Unlike standard visas (2-3 years), Golden Visa doesn't require employer sponsorship.

Eligibility through property:

- Purchase property worth 2M AED or more (~\$545K USD)
- Can be ready property or off-plan
- Can be residential or commercial
- Can be one property or multiple adding up to 2M+
- Mortgage-financed property also eligible (based on purchase price, not equity)

What you get:

- 10-year visa for you + spouse + children
- No employer sponsorship needed
- Can live, work, or invest in UAE
- Tax residency certificate (important for exit tax planning UK/DE/NL)
- 6-month travel allowance (can stay abroad without losing visa)

WTP handles: property selection (Golden Visa eligible), purchase process, visa application, Emirates ID, tax residency certificate.

Q5: I'm from UK/Germany/Netherlands. How do you handle exit tax?

A: Exit tax is triggered when you cease tax residency in UK, Germany, or Netherlands. Dubai property purchase is often part of relocation strategy, so timing and structure matter.

UK (new non-dom rules 2025):

- Capital gains on worldwide assets can be triggered on exit
- Property ownership structure (personal vs company) affects taxation
- UAE tax residency certificate helps establish new tax home

- We coordinate with your UK accountant: timing of purchase, structure, documentation

Germany (Wegzugsteuer):

- Exit tax on unrealized gains if you own 1%+ of company shares
- Property itself not directly taxed, but structure matters
- We time property purchase around official exit date
- Company formation in UAE can be part of tax-efficient structure

Netherlands (Box 3):

- Deemed return on worldwide assets while Dutch resident
- Moving to UAE = exit from Box 3, but timing matters
- UAE tax residency certificate required to prove new residency
- We structure ownership and timing to minimize Box 3 exposure

Our approach: Free consultation with your situation → coordination with home country tax advisor → optimal structure & timing → UAE setup (company + banking + property + tax residency).

Q6: How long does the entire process take?

A: Timeline depends on complexity, but here are typical scenarios:

Fast track (ready property, simple case): 6-8 weeks

- Week 1: Banking pre-screen + initial consultation
- Week 2-3: Property selection + structure decision
- Week 4-5: Company formation (if needed) + bank account application
- Week 6-7: Property purchase, title transfer
- Week 8: Golden Visa application, Emirates ID

Standard (off-plan or complex structure): 10-14 weeks

- Additional time for: exit tax planning, offshore company setup, complex SOF documentation

What runs in parallel:

- Company formation + bank account application + property search (not sequential)
- We don't wait for "step 1 to finish" before starting step 2

Your involvement:

- Initial consultation: 1-2 hours
- Document gathering: 3-5 days
- Property viewings: 1-3 days (can be done remotely via video)
- Signing sessions: 2-3 appointments
- Most communication: WhatsApp, email, video calls

We handle 90% of the work. You make decisions, we execute.

Q7: What are your fees? How does pricing work?

A: Property commission:

- Buyer's agent commission: typically 2% of property value (industry standard UAE)
- Paid by developer/seller (off-plan) or included in transaction (secondary market)
- You don't pay us separately for property brokerage

Advisory & Integrated Services:

- Banking pre-screen: FREE

- Initial consultation: FREE
- Company formation: Standard fees (varies by freezone/mainland: 15K-25K AED)
- Banking setup: Included in integrated package (no separate charge)
- Golden Visa processing: 10K-15K AED (government fees + our service)
- Ongoing compliance (optional): Retainer from 2K AED/month (accounting, renewals, reporting)

Integrated Package (typical total for Golden Visa investor):

- Property purchase 2M AED → commission ~40K AED (2%, paid by seller)
- Company + banking + visa: ~30-40K AED total
- Total: ~70-80K AED for complete setup (company + account + visa + property)

No hidden fees. Full cost breakdown before you commit.

We also offer referral model for partners (wealth managers, tax advisors) – contact us for partner terms.

Q8: What happens after I buy the property? Do you provide ongoing support?

A: Yes. Unlike typical agencies where relationship ends at commission, WTP provides long-term partnership:

Immediate post-purchase (included):

- Title transfer assistance
- DEWA (utilities) setup
- Homeowner association registration
- Golden Visa application completion
- Tax residency certificate application
- Banking account activation

Ongoing support (optional retainer):

- Annual company renewal + license
- Accounting & bookkeeping (if property generates rental income)
- Tax residency certificate renewals
- Visa renewals (every 10 years for Golden Visa)
- Compliance reporting (ESR, audit if applicable)
- Property management (if rental/investment property)
- Additional property purchases (many clients buy 2nd, 3rd properties)

Advisory on tap:

- Market updates (quarterly reports for investors)
- Tax law changes affecting property owners
- New investment opportunities
- Exit strategy when you decide to sell

Cost: Retainer from 2K AED/month (~\$550/month) depending on services needed. Many clients start with property purchase, then add retainer after seeing value.

You're not just buying an apartment. You're building long-term infrastructure in UAE. We stay with you.

CTA after FAQ:

- "Still have questions? Book a free 15-minute call. No pitch, just answers."
- Button: "Book Free Call" + WhatsApp alternative

Section 6: Final CTA (Form Repeat + WhatsApp)

Section Headline: Ready to Start Your UAE Property Journey? **Copy:**

Free banking pre-screen in 48 hours. No commitment, no cost. We'll assess your profile and tell you: (1) Can you open a UAE bank account? (2) What structure is optimal for your situation? (3) What property options fit your goals?

Two CTA Options (side by side on desktop, stacked on mobile): Option 1: Submit Case (Form)

____ | Submit Your Case | | | | [Name] | | [Email] | | [Phone] | | | | [Get Free Pre-Screen] |
____ ` (Same form as above-fold, repeated) **Option 2: WhatsApp** `

____ | Prefer WhatsApp? | | | | Message us now – we reply | | within 2 hours (GMT+4) | | | |
[WhatsApp Icon] | | Message Us on WhatsApp | | | | _____ ` Link: <https://wa.me/971600575294?text=Hi%2C%20I'm%20interested%20in%20Dubai%20property.%20I%20found%20you%20through%20Google>. **Below CTAs:**

- Small text: "Or call us: +971 600 575 294"
- Office hours: "Sun-Thu 9:00-18:00 GST (GMT+4)"

Technical Requirements

Page Speed & Performance

Target Metrics:

- Largest Contentful Paint (LCP): < 2.5s
- First Input Delay (FID): < 100ms
- Cumulative Layout Shift (CLS): < 0.1
- Time to Interactive (TTI): < 3.5s

Optimization Requirements:

1. Images:

- All images WebP format with fallback - Lazy loading below fold - Responsive srcset for different screen sizes - Hero image: < 200KB - Icons: SVG (not raster)

1. JavaScript:

- Critical JS inline in - Non-critical JS deferred - Form validation: client-side first, server-side backup - No jQuery (use vanilla JS or React)

1. CSS:

- Critical CSS inline for above-fold - Rest of CSS loaded async - Minified and compressed

1. Fonts:

- Google Fonts with font-display: swap - Preload primary font (Inter or similar) - Max 2 font families, 4 weights total

1. Third-Party Scripts:

- Google Tag Manager: async - Google Ads conversion tracking: async - WhatsApp widget (if used): load after page load

Mobile Responsiveness

Breakpoints:

- Mobile: < 768px
- Tablet: 768px - 1024px
- Desktop: > 1024px

Mobile-Specific Requirements:

1. Form:

- Full width on mobile - Larger touch targets (min 48px height) - Input type="tel" for phone (triggers numeric keyboard) - Input type="email" for email (triggers email keyboard) - Dropdowns: native select on mobile (better UX than custom)

1. CTAs:

- WhatsApp button sticky at bottom (fixed position) - Floating action button (FAB) style - "Submit Form" CTA above fold

1. Navigation:

- Sticky header with logo + WhatsApp button - Minimal navigation (this is a focused landing page, not full site)

1. Typography:

- H1: 32px mobile, 56px desktop - Body text: 16px minimum (readable without zoom) - Line height: 1.5-1.6

1. Spacing:

- Generous padding on mobile (min 20px sides) - Vertical rhythm: consistent spacing between sections

UTM Parameter Capture

Requirement: Все UTM параметры из URL должны сохраняться и передаваться в CRM при submit формы. **Implementation:**

1. **JavaScript:** На load страницы, захватить UTM из URL:

```
` javascript const urlParams = new URLSearchParams(window.location.search); const utmParams = { utm_source: urlParams.get('utm_source') || '', utm_medium: urlParams.get('utm_medium') || '', utm_campaign: urlParams.get('utm_campaign') || '', utm_term: urlParams.get('utm_term') || '', utm_content: urlParams.get('utm_content') || '' }; `
```

1. **Hidden Form Fields:** Добавить скрытые поля в форму:

```
` html `
```

1. **Populate on Page Load:**

```
` javascript document.getElementById('utm_source').value = utmParams.utm_source; document.getElementById('utm_medium').value = utmParams.utm_medium; // ... etc for all UTM params `
```

1. **Submit to CRM:** При отправке формы, включить UTM в payload к Bitrix24 webhook или CRM API.

1. **Persist in Session:** Сохранить UTM в sessionStorage (если пользователь переходит на другие страницы сайта, UTM сохраняются).

Conversion Tracking Setup

Primary Conversion: Form Submit

1. **Google Ads Conversion Tag:**

- Fire on form submit success - Conversion ID: [WTP_CONVERSION_ID] - Conversion Label: [FORM_SUBMIT_LABEL] - Value: \$150 (average CPL estimate)

1. **GA4 Event:**

- Event name: submit_lead_form - Parameters: - form_type: "google_ads_landing" - utm_campaign: {{utm_campaign}} - utm_source: {{utm_source}} - budget_range: {{selected budget}} - interest: {{selected interest}}

1. **Facebook Pixel** (if running Meta ads later):

- Event: Lead - Parameters: budget, country, interest **Secondary Conversion: WhatsApp Click**

1. **Google Ads Conversion Tag:**

- Fire on WhatsApp link click - Conversion ID: [SAME_WTP_CONVERSION_ID] - Conversion Label: [WHATSAPP_CLICK_LABEL] - Value: \$100

1. **GA4 Event:**

- Event name: whatsapp_click - Parameters: utm_campaign, utm_source, page_location **Phone Call Conversion** (if call tracking enabled):

- Event: phone_call
- Trigger: click on tel: link OR call tracking number integration
- Value: \$80

A/B Testing Framework

Tools: VWO или Optimizely (Google Optimize deprecated — не использовать) **A/B Test Suggestions (Priority Order):**

Test 1: Form Length (High Priority)

Variant A (Control — launch default): 3 fields

- Name, Email, Phone (optimized for cold Google Ads traffic)

- Country, Budget, Interest captured in follow-up call/WhatsApp

Variant B: 6 fields (qualification)

- Name, Email, Phone + Country, Budget Range, Interest
- Higher friction but better lead qualification before first call

Hypothesis: 3 fields = higher conversion rate for cold paid traffic; test 6 fields after 50+ conversions **Success Metric:** Form submit rate (target: Variant A baseline, then compare with B) **Secondary Metric:** Lead-to-call rate (may be higher with Variant B due to pre-qualification)

Test 2: Headline Messaging (High Priority)

Variant A (Control): Banking-First

Golden Visa Through Property — Banking-First Approach

Variant B: Problem-Aware

Can You Open a UAE Bank Account? Check Before You Buy.

Variant C: Integrated Service

Dubai Property Investment — Company + Bank + Visa + Property

Hypothesis: Different segments resonate with different angles **Success Metric:** Time on page + form submit rate **Segment by:** utm_campaign (Golden Visa vs Investment vs Structure)

Test 3: CTA Button Text (Medium Priority)

Variant A (Control): "Get Free Pre-Screen" **Variant B:** "Check Eligibility Now" **Variant C:** "Submit Your Case" **Variant D:** "Book Free Consultation" **Hypothesis:** Action-oriented CTA ("Check") performs better than passive ("Get") **Success Metric:** Button click-through rate

Test 4: Social Proof Placement (Medium Priority)

Variant A (Control): Left side above fold + separate section below **Variant B:** Directly above form (right side)

- "300+ cases, 94% approval" as trust badge directly above form fields

Variant C: Within form as inline text

- Small text inside form: "Join 300+ investors who started here"

Hypothesis: Social proof closer to form reduces friction **Success Metric:** Form submit rate

Test 5: WhatsApp CTA Prominence (Low Priority)

Variant A (Control): Text link below form **Variant B:** Equal button next to Submit

- Two equal-sized buttons: "Submit Form" | "WhatsApp Us"

Variant C: Sticky WhatsApp FAB (mobile only)

- Floating action button bottom-right, always visible

Hypothesis: More prominent WhatsApp = higher total conversion (form + WhatsApp combined) **Success Metric:** Total conversions (form submit + WhatsApp clicks)

Accessibility (WCAG 2.1 AA Compliance)

Requirements:

1. Keyboard Navigation:

- All form fields, buttons, links accessible via Tab - Focus indicators visible (outline or custom styling) - Escape key closes any modals/overlays

1. Screen Readers:

- All images have alt text - Form labels properly associated with inputs (for/id) - aria-label on icon-only buttons - aria-required on required fields - aria-invalid + aria-describedby for validation errors

1. Color Contrast:

- Text on background: min 4.5:1 ratio (7:1 for AAA) - Button text on button background: min 4.5:1 - Check with WebAIM Contrast Checker

1. Form Validation:

- Inline error messages (not just red border) - Error summary at top of form if multiple errors - Success message after submit (not just redirect)

1. Headings:

- Logical hierarchy (H1 → H2 → H3, no skipping levels) - Only one H1 per page

1. Links:

- Descriptive link text (not "click here") - External links indicated (icon or text)

Copy — Full Text for All Sections

Above-Fold

Headline:

Golden Visa Through Property — Banking-First Approach

Sub-headline:

Unlike typical agents, WTP verifies your bank account eligibility BEFORE you sign any property agreement. We structure your entire UAE entry: company formation, banking, Golden Visa, and property selection—as one integrated service.

Form Labels (Launch Version — 3 fields):

- Name: "Your Name"
- Email: "Email Address"
- Phone: "Phone Number (with country code)"

Submit Button: "Get Free Pre-Screen" WhatsApp CTA: "Prefer WhatsApp? Message Us Now →" Privacy Text:

By submitting, you agree to our [Privacy Policy] and consent to be contacted about WTP services.

Trust Badges:

- RERA Licensed Agency | License #: [NUMBER]
- Part of WTP Advisory Group | Corporate + Banking + Real Estate
- 300+ Cases in 2025 | 94% Bank Approval Rate

- 48-Hour Pre-Screen | Free Eligibility Check

Section 1: How It Works

Section Headline: How WTP Structures Your UAE Property Investment **Step 1: Banking Pre-Screen (48h)**

We assess your profile: source of funds, KYC documents, banking eligibility. You know if you can open a UAE account BEFORE looking at any property. Free, 48-hour turnaround.

Step 2: Ownership Structure

Personal name or company? Freezone LLC or offshore holding? We analyze your tax situation (UK, DE, NL exit tax) and recommend optimal structure. Exit tax planning included.

Step 3: Company + Bank + Property

While you search for property, we handle: company formation, bank account application, Golden Visa prep. Everything in parallel. No waiting for "step 1 to finish."

Step 4: Purchase & Compliance

Property closing, title transfer, Golden Visa application, tax residency certificate. Then: ongoing compliance support, accounting, renewals. Long-term partnership.

CTA: "Start Your Free Pre-Screen"

Section 2: Why WTP ≠ Typical Agency

Design Guidelines

Color Palette

Primary Colors:

- Dark Navy: #1A2332 (backgrounds, headers)
- WTP Gold: #C5A572 (accents, CTAs, highlights)
- White: #FFFFFF (text on dark backgrounds, cards)
- Light Gray: #F8F9FA (section backgrounds for contrast)

Secondary Colors:

- Success Green: #28A745 (WhatsApp, checkmarks, success states)
- Error Red: #DC3545 (validation errors)
- Info Blue: #007BFF (informational highlights)
- Text Gray: #6C757D (secondary text, placeholders)

Usage:

- Hero section: Dark navy background, white text, gold accents
 - Form: White card with subtle shadow on navy background (desktop) or white background (mobile)
 - CTA buttons: Gold background (#C5A572), dark navy text
 - WhatsApp: Green (#25D366 official WhatsApp green)
-

Typography

Font Stack:

- **Headings:** Playfair Display (serif, elegant) OR Inter (sans-serif, modern)
- **Body:** Inter (sans-serif, highly readable)
- **Accents:** JetBrains Mono (monospace, for numbers/metrics) — optional

Sizes:

- H1 (Headline): 56px desktop / 32px mobile, font-weight 700
- H2 (Section Headlines): 40px desktop / 28px mobile, font-weight 600
- H3 (Subsections): 28px desktop / 24px mobile, font-weight 600
- Body: 16px (mobile & desktop), font-weight 400, line-height 1.6
- Small text (privacy, footnotes): 14px, font-weight 400

Hierarchy:

- Headings: Dark navy (#1A2332) or White (on dark backgrounds)
 - Body text: Dark gray (#333333) or White
 - Secondary text: Gray (#6C757D)
 - Links: Gold (#C5A572), underline on hover
-

Spacing & Layout

Container:

- Max-width: 1200px (desktop)
- Padding: 80px vertical between sections (desktop), 60px (mobile)
- Side margins: 40px desktop, 20px mobile

Grid:

- Above-fold: 60/40 split (trust badges 60%, form 40%) on desktop

- Sections: 2-column or 3-column grids where applicable
- Mobile: single column, stacked

Cards:

- Background: White
- Border-radius: 8px
- Box-shadow: 0 2px 8px rgba(0,0,0,0.1)
- Padding: 32px (desktop), 24px (mobile)

Buttons:

- Height: 56px (desktop & mobile for primary CTAs)
- Border-radius: 4px
- Padding: 16px 32px
- Font-size: 16px
- Font-weight: 600
- Transition: 0.2s ease (hover effects)

Icons

Style: Line icons (not filled), 2px stroke width **Sources:** Heroicons, Feather Icons, or custom SVG **Size:** 24px standard, 32px for section icons, 48px for feature icons **Color:** Gold (#C5A572) or Dark Navy (#1A2332) depending on background **Icons Needed:**

- Shield with checkmark (Banking Pre-Screen)
- Connected nodes (Structure)
- Three parallel arrows (Parallel Execution)
- Key (Closing)
- Checkmark (Trust badges, list items)
- Clock (48-hour turnaround)
- Building (RERA, WTP Group)
- Phone (Call CTA)
- WhatsApp logo (WhatsApp CTA)
- Chevron down (FAQ accordion)

Implementation Checklist

Phase 1: Design & Copy (Week 1)

- [] Finalize headline variants for A/B test
- [] Write all section copy (use this spec as base)
- [] Design mockups (desktop + mobile) in Figma
- [] Get WTP team approval on copy & design
- [] Prepare all images (icons, hero image, case study visuals)
- [] Optimize images (WebP, compressed)

Phase 2: Development (Week 2)

- [] Set up HTML structure (semantic, accessible)
- [] Implement responsive CSS (mobile-first)
- [] Build form with validation (client-side + server-side)
- [] Implement UTM capture JavaScript
- [] Integrate with Bitrix24 webhook (form submit)
- [] Add Google Tag Manager

- [] Set up Google Ads conversion tracking (form + WhatsApp)
- [] Set up GA4 events
- [] Implement FAQ accordion functionality
- [] Add smooth scroll to form CTA
- [] Test across browsers (Chrome, Safari, Firefox, Edge)
- [] Test on devices (iPhone, Android, iPad, desktop)

Phase 3: Testing (Week 3)

- [] Lighthouse audit (performance, accessibility, SEO)
- [] Fix performance issues (image optimization, lazy loading)
- [] WCAG accessibility check (keyboard nav, screen reader, contrast)
- [] Cross-browser testing
- [] Mobile responsiveness check (multiple devices)
- [] Form submission test (end-to-end: submit → Bitrix24)
- [] Conversion tracking test (Google Ads tag firing on submit)
- [] UTM parameter capture test (check hidden fields populated)
- [] WhatsApp link test (opens app on mobile, web.whatsapp.com on desktop)
- [] Load testing (check page doesn't break under traffic spike)

Phase 4: Launch & Monitor (Week 4)

- [] Deploy to production (realestate.wtpref.com)
- [] Verify DNS and SSL certificate
- [] Submit sitemap to Google Search Console
- [] Set up Google Optimize (for A/B tests)
- [] Configure test variants (headline, form length)
- [] Turn on Google Ads campaigns (start with Campaign 1)
- [] Monitor first 24h: conversion tracking, form submissions, errors
- [] Check Analytics: bounce rate, time on page, scroll depth
- [] Iterate based on first week data

Phase 5: Optimization (Ongoing)

- [] Weekly: review Google Ads performance + landing page analytics
- [] A/B test analysis: after 100+ conversions per variant, declare winner
- [] Implement winning variant as new control
- [] Test next element (CTA button text, social proof placement)
- [] Update copy based on user feedback (FAQ additions, objection handling)
- [] Refresh case studies (add new real examples as they happen)
- [] Update metrics (300+ → 500+ cases, 94% → new approval rate)
- [] Seasonal updates (Q4 spike messaging, Ramadan adjustments)

Success Metrics & KPIs

Primary Metric: Conversion Rate

Target: 5-7% (form submit + WhatsApp click combined) **Tracking:**

- GA4: Total conversions / Total visitors
- Google Ads: Conversions / Clicks
- Breakdown: Form submit vs WhatsApp (which converts better?)

Benchmark: Industry average for RE landing pages = 2-4%. WTP targets higher due to:

- High-intent traffic (Google Ads, not cold traffic)
 - Differentiated offering (banking-first, integrated)
 - Strong social proof (300+ cases, 94% approval)
-

Secondary Metrics

Bounce Rate: Target < 40%

- High bounce = messaging mismatch or slow load
- Fix: ensure ad copy matches landing page headline

Time on Page: Target > 2 minutes

- Indicates engagement, reading content
- Low time = content not compelling or page confusing

Scroll Depth: Target 70%+ reach "How It Works" section

- Tracks how far users scroll
- Low scroll depth = above-fold not compelling enough

Form Abandonment Rate: Target < 50%

- Users who start form but don't submit
 - High abandonment = form too long or friction
 - Fix: A/B test shorter form
-

Lead Quality Metrics (Post-Conversion)

Lead-to-Call Rate: Target 60%+

- How many form submits turn into actual phone/WhatsApp conversation
- Low rate = low-quality leads (tire kickers)

Call-to-Viewing Rate: Target 40%+

- How many calls turn into property viewing or serious consultation
- Measures qualification

Lead-to-Deal Rate: Target 5-10% (6-month window)

- How many leads eventually purchase property
- Ultimate success metric

Cost Per Acquisition (CPA):

- Total Google Ads spend / Number of deals closed
 - Target: < \$3,000 per closed deal (property commission should exceed this)
-

Appendix: Messaging Variants by Traffic Source

Google Ads приводит разные segments. Landing page должна адаптироваться (или иметь динамический контент) в зависимости от utm_campaign.

For Golden Visa Traffic (utm_campaign=golden_visa)

Headline: Golden Visa Through Property — Banking-First Approach **Sub-headline:** Focus on "10-year visa for family" + "2M AED threshold" + "banking pre-screen" **Hero CTA:** "Check Golden Visa Eligibility" **Highlighted FAQ:** Q4 (Golden Visa eligibility)

For Investment Traffic (utm_campaign=investment)

Headline: Dubai Real Estate Investment — Structure First, Property Second **Sub-headline:** Focus on "ROI optimization" + "ownership structure" + "tax efficiency" **Hero CTA:** "Get Free Investment Analysis" **Highlighted FAQ:** Q3 (Personal vs Company ownership)

For Relocation Traffic (utm_campaign=relocation)

Headline: Relocate to UAE — Full Setup: Company + Bank + Visa + Property **Sub-headline:** Focus on "integrated relocation" + "exit tax planning UK/DE/NL" + "family visa" **Hero CTA:** "Start Your Relocation Pre-Screen" **Highlighted FAQ:** Q5 (Exit tax handling)

For Structure/Banking Traffic (utm_campaign=banking or structure)

Headline: Can You Open a UAE Bank Account? Check Before You Buy. **Sub-headline:** Focus on "40% face banking problems" + "free 48h pre-screen" + "SOF preparation" **Hero CTA:** "Check Banking Eligibility" **Highlighted FAQ:** Q1 (Banking pre-screen explained)

Final Notes for WTP Team

1. **Content is King:** Every word on this landing page should reinforce differentiation (banking-first, integrated, not just agents). Generic real estate copy = wasted Google Ads spend.
 1. **Test Everything:** Don't assume. A/B test headline, form length, CTA text. Let data decide.
 1. **Social Proof is Critical:** "300+ cases, 94% approval" needs to be REAL numbers. If numbers change, update landing page. Fake social proof = loss of trust.
 1. **Mobile First:** 60%+ of traffic will be mobile. Test on real devices, not just browser emulators.
 1. **Speed Matters:** Every 1-second delay = 7% conversion loss (industry stat). Optimize images, minimize JavaScript.
 1. **WhatsApp is Your Friend:** For MENA audience, WhatsApp converts BETTER than forms. Make it prominent.
 1. **Follow Up Fast:** If form submit happens, response within 2 hours = 10x higher conversion than 24h response. Set up alerts.
 1. **Update Regularly:** Landing pages aren't "set and forget." Update metrics, add new case studies, refresh copy every quarter.
