WTP Boutique Real Estate

About WTP (300 words max)

WTP Boutique Real Estate is the property advisory arm of WTP Group — a UAE-based corporate services and investment structuring firm.

Unlike the 8,000+ real estate agencies in Dubai, we don't just sell properties. We structure entire investor entries into the UAE market: banking relationships, company formation, visa processing, tax residency setup, and property acquisition — as one integrated service.

Our Approach: Banking-First

Most property buyers discover banking issues AFTER signing the Sale and Purchase Agreement. We reverse this: we verify your banking eligibility and structure your ownership BEFORE you commit to any property. This protects your capital and ensures smooth execution.

Who We Serve

- High-net-worth individuals relocating to UAE (UK, DE, NL, CH)
- Investors seeking Golden Visa through property (2M+ AED)
- Business owners needing substance (company + office + residency)
- Family offices requiring wealth structuring + property portfolio management
- International partners (tax advisors, wealth managers) referring UAE-bound clients

What Makes Us Different

We operate at the intersection of real estate and corporate advisory. Our clients benefit from:

- ✓ **Banking Pre-Screen** — Know if you can open a UAE bank account before signing
- ✓ **Ownership Structuring** — Personal vs LLC vs holding company (tax implications)
- ✓ **Visa & Tax Residency** — Complete pathway from property to Golden Visa to tax certificate
- ✓ **Substance Compliance** — Office, staff, economic presence for tax residency
- ✓ **Partner Network** — Collaboration with your existing advisors (lawyers, accountants, tax specialists)

Specializations

Luxury residential (2M+ AED), Golden Visa properties, RAK emerging markets, Expo City, commercial real estate for corporate clients, family villas (substance/relocation), multi-jurisdictional ownership structures.

Why Clients Choose WTP

Because buying property in Dubai is an investment decision, not just a lifestyle choice. We approach it as your integrated advisory partner, not a transactional agent.

- [] **Next business day** — nights and weekends (set auto-reply)

Review Strategy

When to ask for reviews:

- After successful property viewing (if client is impressed)
- After offer acceptance (before closing)
- 2 weeks after closing (once settled, emotions positive)
- After successful Golden Visa approval (major milestone)

How to ask: `` Hi [Name], hope you're settling in well. If you're happy with the service we provided, would you consider leaving a brief review on [Bayut/Property Finder]? It helps other families/investors find us. Here's the link: [link]. Thank you! ``

Don't ask:

- Immediately after viewing (too early)
- If client is frustrated/unresponsive
- Before deal is fully closed (risk of negative review if something goes wrong)

Incentivize (optional):

- Small gift after review (coffee voucher, plant for new home, etc.) — NOT payment for review

Additional Best Practices

Portal SEO

- **Use keywords in bio:** Golden Visa, luxury real estate Dubai, investment property, RAK specialist, etc.
- **Listing titles:** Include area + property type + key feature (e.g., "2BR Downtown Dubai — Golden Visa Eligible")
- **Description keywords:** Sprinkle naturally (banking, visa, structure, investment, yield)

Engagement Tactics

- **Update listings weekly** — portals reward active accounts with better visibility
- **Respond to EVERY inquiry** — even if not qualified ("Thank you for reaching out. This property is [status]. Can I help you find something similar?")
- **Featured listings** — invest in 2-3 featured slots for best properties (premium placement)
- **Portal ads** — test \$300-500/month on Bayut TruCheck or Property Finder Featured Agent

Analytics Tracking

- **Weekly:** Review views, leads, conversion rate per listing
 - **Monthly:** CPL (cost per lead) from portal subscription fees
 - **Quarterly:** Lead quality assessment (portal vs other channels)
 - **Optimize:** Pause underperforming listings, boost high-performers, test new templates
-

Next Steps:

1. Create agent profiles on Bayut + Property Finder using templates above
 2. Upload 5-10 luxury listings (2M+ AED) using listing templates
 3. Set up WhatsApp Business with auto-replies
 4. Implement SLA (15 min response during business hours)
 5. Track: views, leads, response rate, conversion
 6. Iterate: A/B test descriptions, photo order, CTAs
-
