Этап 3 из 10 / Создан: 2026-02-23 Источник: Message Map (Этап 1) + Wireframe (Этап 2) Голос: PMC Brand Voice — clinical, expert, restrained, risk-aware

Section 1: Hero

Headline Options (choose one for launch, A/B test the rest)

Option A (recommended — Loss Aversion):

Your clients get a working result. Your reputation stays protected.

Option B (Authority + Specificity):

UAE execution infrastructure built for bankability, not speed.

Option C (Rhetorical Question):

What happens to your reputation when a UAE provider cuts corners?

Subheadline:

WTP is a local execution partner that begins with banking pre-approval, legally protects partner interests, and gives you full visibility into every stage of the process.

Label:

For Professional Partners

CTA Primary:

Submit a Case

CTA Secondary (outline):

Get Partner Kit

Section 2: Three Principles

Label:

Principles

Headline:

Three rules we never break.

Card 1: Partner Protection (Non-Circumvention)

Title:

Partner Protection

Body:

We legally fix client ownership to the introducing partner. All communications, additional services, or contract extensions go through you. We exclude direct commercial contact with the client that bypasses the partner.

Accent: magma

Card 2: Banking-First Methodology

Title:

Banking-First

Body:

Unlike registration agents, we start with banking pre-screening. We don't register companies that won't be able to open operating accounts. This protects your reputation: we don't sell instruments that don't work.

Accent: gold

Card 3: Process Transparency

Title:

Process Transparency

Body:

You get live access to deal status tracking. Every stage — KYC, Bank Approval, Visa Issuance — is logged. You always know where the documents are and when to expect a result.

Accent: teal

Section 3: Competencies

Label:

Competencies

Headline:

Full execution across four domains.

Block 01: Banking & Compliance

Title:

Banking & Compliance

Body:

Personal and corporate account opening, including complex cases: high-risk profiles, RF passport + residence permit combinations, crypto assets with confirmed Source of Funds. Transaction unblocking and support.

Block 02: Corporate Structuring

Title:

Corporate Structuring

Body:

Company registration (Mainland / Free Zone) tailored to specific business objectives, accounting for Economic Substance Regulations (ESR) requirements.

Block 03: Tax & Accounting

Title:

Tax & Accounting

Body:

Corporate Tax and VAT setup, regular bookkeeping, and audit preparation. Aligned with banking compliance from day one.

Block 04: Private Client Services

Title:

Private Client Services

Body:

Residency processing (Golden Visa), tax residency certificates, wills, and private foundations. Integrated with corporate structuring and banking.

Section 4: Engagement Models

Label:

Engagement Models

Headline:

Two ways to work with us.

Card Left: Referral (recommended visual)

Title:

Referral

Mechanic label:

Mechanic:

Mechanic text:

You introduce the client. WTP handles communication, paperwork, and execution.

Role label:

Your role:

Role text:

Introduction and general oversight.

Terms label:

Terms:

Terms text:

Referral commission paid on deal close.

Card Right: White-Label (Back Office)

Title:

White-Label

Mechanic label:

Mechanic:

Mechanic text:

WTP prepares solutions, documents, and strategies. Client communication stays on your side or is conducted under your brand.

Role label:

Your role:

Role text:

Single window for the client.

Terms label:

Terms:

Terms text:

Net partner rates. You set the final price for the client.

Section 5: Risk Appetite

Label:

Risk Appetite

Headline:

Who we work with — and who we don't.

Left Block (Accept — green accent):

Title:

We work with

Body:

Clients ready to confirm Source of Funds (SoF) and pass full KYC procedure. Transparent business rationale. Document readiness. Realistic expectations.

Right Block (Decline — red accent):

Title:

We decline

Body:

SDN-listed persons. Nominee service requests without disclosed beneficial owners. Cases without documented asset confirmation. "Do it with no questions asked" requests.

Section 6: CTA

Headline:

Start with one case.

Body:

Get a pre-screen verdict, a commercial offer with clear boundaries, and a delivery plan with defined control points.

CTA Primary:

Submit a Case

CTA Secondary (outline):

Request Partner Kit

Annotations (rationale for key choices)

Why "Three rules we never break" (not "Our values" or "Our approach"):

- "Rules" = concrete, enforceable, not aspirational
- "Never break" = Commitment & Consistency — creates contractual feeling
- Avoids generic "values/principles" framing that every company uses

Why "Working result" in hero (not "comprehensive services"):

- Outcome framing > feature framing
- "Working" implies it ACTUALLY functions (contrast with competitors who sell non-functional structures)
- Jobs to Be Done: partners hire WTP to get working outcomes, not documents

Why no social proof section:

- WTP is early stage — no logos, no testimonials yet
- Adding fake/generic proof would undermine the clinical tone
- Better to add social proof section AFTER first 5 pilot cases complete
- The "Risk Appetite" section serves as implicit proof: "we filter = we're serious"

Why 4 competencies not 8 products:

- Hick's Law: fewer options = faster comprehension
- Trust-First is about WHY to work with us, not WHAT we sell
- Partners can explore full product catalog on L1 (main landing)
- Competency blocks show breadth without overwhelming

Why Referral is visually highlighted:

- Default Effect: pre-select the easier option
- Foot-in-the-Door: start with low commitment → upgrade to White-Label later
- Most partners will start as Referral anyway (lower activation energy)

Word count summary

SECTION	WORDS (APPROX)
Hero	65
3 Principles	130
Competencies	100
Models	95
Risk Appetite	60
CTA	35
Total	~485

Landing page is intentionally concise — under 500 words. Clinical tone demands brevity.
